

# Zoey LED Floor Lamp

Please read all instructions before assembly and operation.

## Before You Start

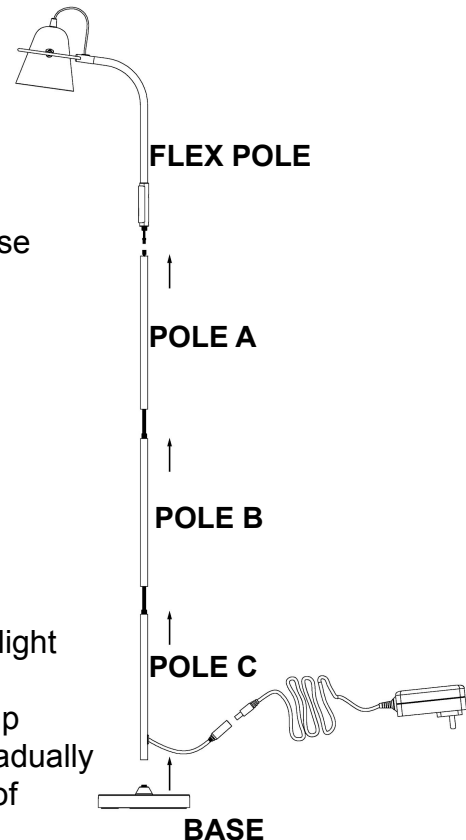

- Inspect your lamp for any damage.
- Remove all packing materials from your lamp.
- When removing your lamp from packaging, avoid pulling on any of the wires.
- Lay out all the parts on a flat surface.

## Assembly

1. Take the **FLEX POLE**, press the **LOCKING CONNECTORS** into place, and thread the power cord through **POLE A**.
2. Screw **POLE A** clockwise into the **FLEX POLE**.
3. Thread the power cord through **POLE B** and then screw **POLE B** clockwise into **POLE A**.
4. Carefully thread the excess power cord through **POLE B**.
5. Screw **POLE C** clockwise into **POLE B**.
6. Screw **POLE C** clockwise into the **BASE**.
7. Connect the plugs on the external power cord..
8. Plug the DC power adapter into an outlet.
9. Your lamp is ready to use!

## Operating Instructions

1. Press the power button to turn on your lamp to the full-spectrum (6000K) light mode.
2. Pressing and holding the power button again will gradually cycle your lamp through its brightness settings, first down to its lowest setting and then gradually back up to its highest setting. When your lamp reaches the desired level of brightness, release the power button.
3. Press the power button again to turn off your lamp.
4. If you press the power button again within 5 seconds, your lamp will enter the soft white (4500K) light mode. Press and hold the power button again to then dim your lamp while in the soft white light mode.
5. Press the power button again to turn off your lamp.
6. If you press the power button again within 5 seconds, your lamp will enter the warm white (3000K) light mode. Press and hold the power button again to then dim your lamp while in the warm white light mode.
7. If you repeatedly press the power button without holding, your lamp will rotate between the different light modes.
8. If your lamp is turned on after 5 seconds, it will remain at the last light mode selected.
