Dog Houses

Assembly Instructions

Dimensions: 37.5 x 39.5 x 30 inches

Dear Customer,

Congratulations on your purchase of this beautiful dog houses.
Our products are regularly inspected to ensure that they meet the desired high quality standard,and of course, always comply with the stringent requirements of USA. We wish a lot of fun while playing!

1, The dog houses is made natural spruce. This natural product has a certain smell that quickly dissipates in the fresh air. Irregularities such as white flakes and the surface of the wood, which has been treated with a water-soluble and environmentally friendly glaze, can be wiped off with a damp cloth and are absolutely harmless.

2, READ THE SETUP INSTRUCTIONS. IMPORTANT INFORMATION INCLUDED. KEEP FOR FUTURE USE!
Please read the instructions thoroughly and in their entirety before using the product for the first time. Keep these instructions for future reference. Should you pass the product on in future, ensure that you also include these instructions.

3, CAUTION! POTENTIAL DANGER!
Observe the safety information and setup instructions to avoid the risk of injury or damage to the product.

4, RISK OF SUFFOCATION!
Keep small parts and packaging material out of the reach of children!

5, PRODUCT MODIFICATION
Never make modifications to the product! Modifications will invalidate the warranty and the product may become unsafe,or in the worst case scenario, dangerous.

6, GENERAL NOTES

We recommend at least 2 people for the assembly. Please make sure the products have been assembled in flat ground with a hard carton board on the bottom to avoid scratches of panels.

Please note that the screws are first inserted by hand and then only tightened slightly so that the screw is secure and the elements are loosely connected. Do not tighten the screws until all elements are connected in the correct way. Subsequent tightening of the screws can compensate for minor discrepancies in drill holes or weld points that can be present in hand-finished products. Ensure that this product is fully assembled before use. Check that all screws and bolts are securely tightened, and monitor this on a regular.

Do not screw the screws in too tightly as the material may become damaged and cracks may form.

7, CAUTION!
Keep small children away during assembly as there is a risk of injury! Failure to carry out regular care and maintenance will significantly reduce the life of your product. We cannot accept any liability for consequential damage resulting from lack of care and maintenance.

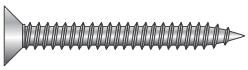

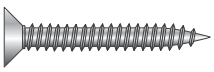

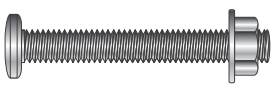

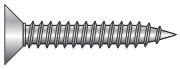

8, UNPACKING INSTRUCTIONS
Open the box and remove the product. After unpacking, please check the product for damage and to ensure it is complete.

9, MAINTENANCE AND CARE INSTRUCTIONS
Check all parts for signs of wear. If defects are found, do not continue to use the product. Make sure that the wooden parts are washed with lukewarm water and a light soap solution before assembly in order to remove wood dust and any pre-treatment residues. You have purchased a natural wooden product that "works" over time. Natural cracks, material stretching or similar can occur, this is a natural process and not a reason for complaint. Check this at regular intervals.

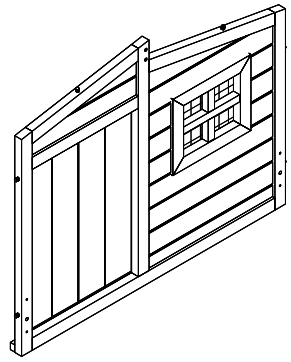

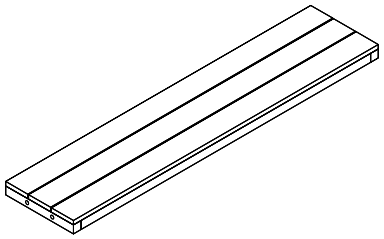

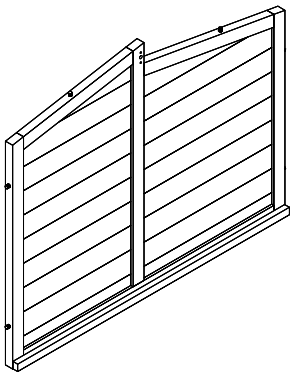

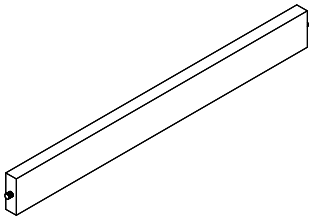

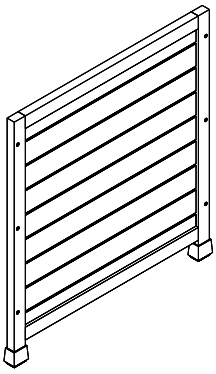

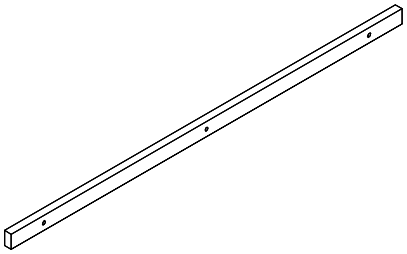

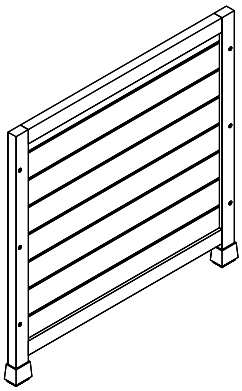

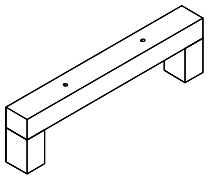

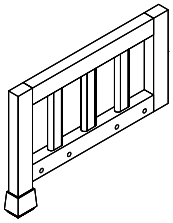

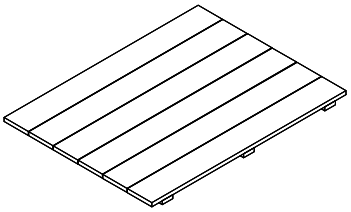

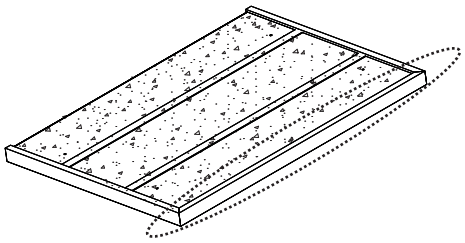

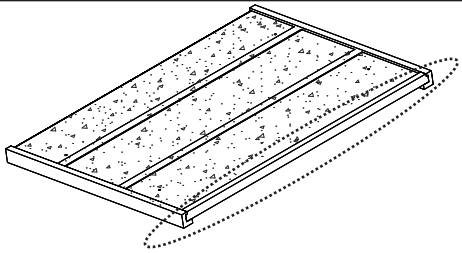

10, DISPOSAL
At the end of your item's long service life, please dispose of the valuable raw materials properly so that proper recycling can take place. If you are not sure how best to proceed, the local waste disposal companies or recycling centres will be happy to help.

11, SERVICEPORTAL
For any kind of service, complaints and technical support, you can confidently turn to our trained staff.
Thank you very much to choose our products!
