

Simply Kids

Anti-Allergy Sprung Mattress

Anti-allergy and anti-dust mite protection

The Jay-Be Simply Kids Anti-Allergy mattress is designed to provide comfortable support, with anti-allergy and anti-dust mite protection. Created with consideration for children prone to allergy-related sensitivities, this 100% foam free mattress is made with hypoallergenic, odourless materials and treated with a natural, salt-based fire retardant (FR). It also features Purotex™ protection - a natural Probiotic fabric technology designed to support a cleaner, fresher sleep environment. Active probiotics are infused into the fabric and gradually released over time, helping to absorb moisture and reduce dust mites and other microorganisms that can trigger common allergies.
