Overview

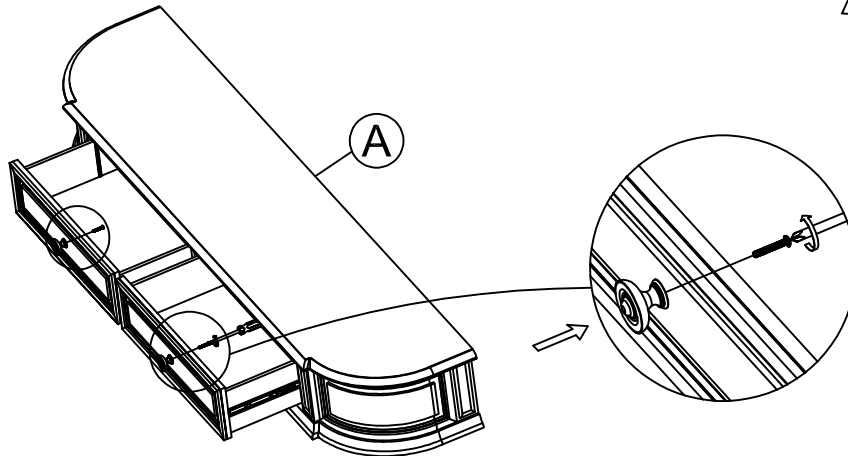

FRONT FACING

This table consists of many parts and may take up to 60 minutes to assemble. To help you better understand the overall structure of the parts, the image above is provided to help you assemble the different components correctly. Please read the instructions carefully to familiarize yourself with the parts and steps before assembling.

Step 1

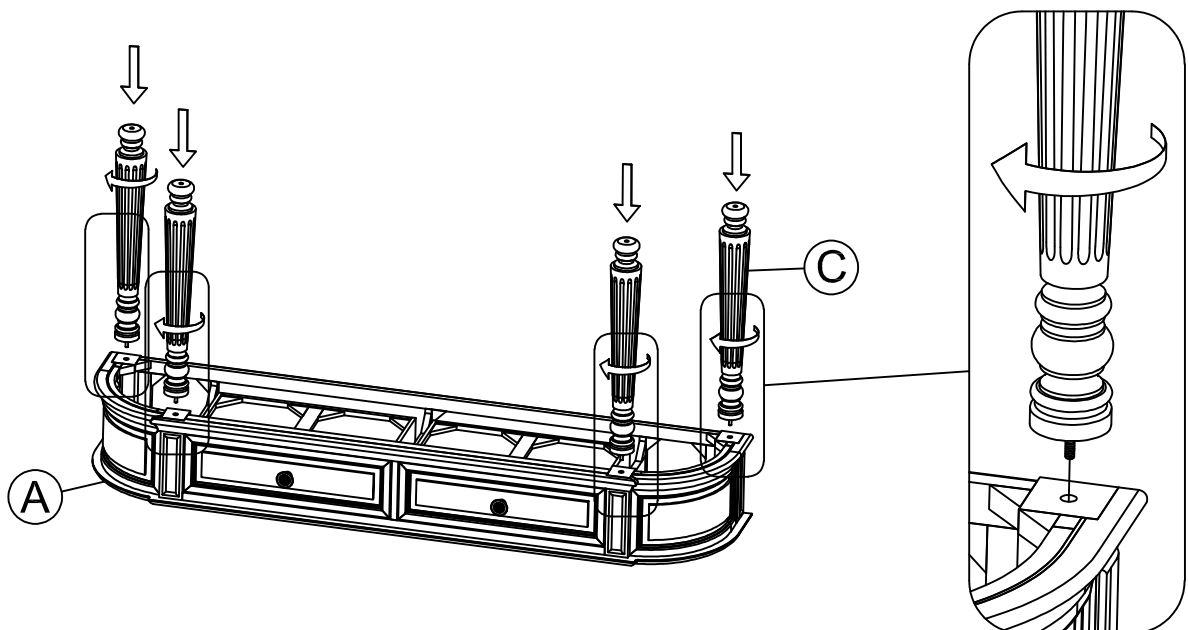

Step 2

Step 1: Pull out the drawer and use a screwdriver to unscrew the bolts to remove the inner handle.

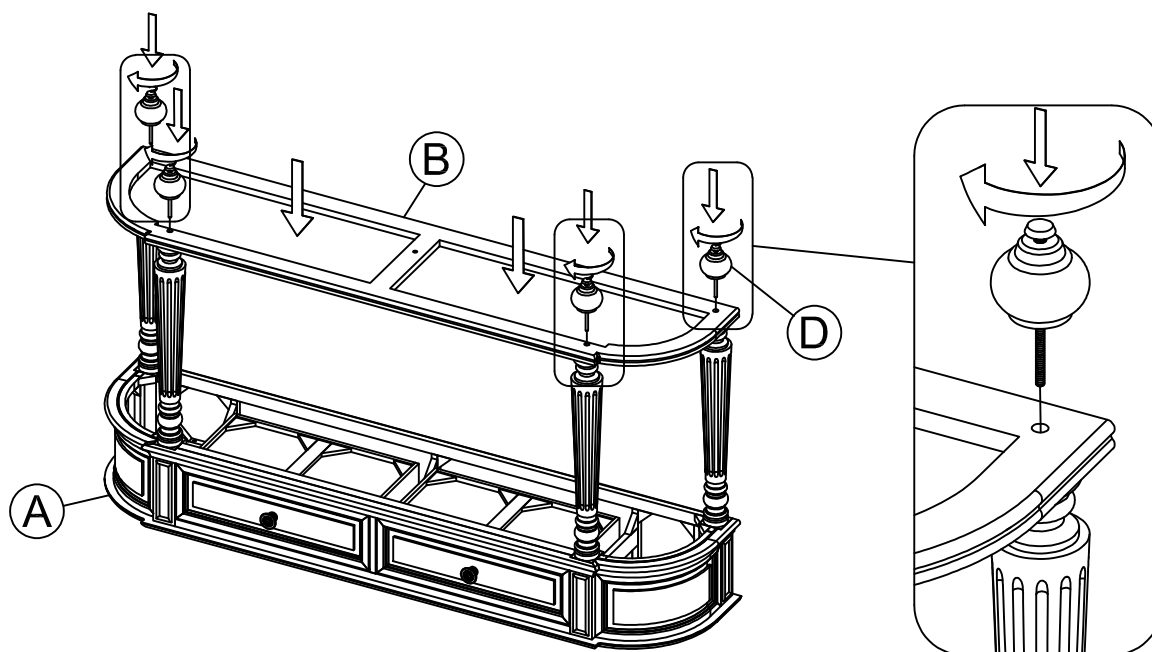

Step 2: Pull the handle out and tighten the bolts.

Step 3

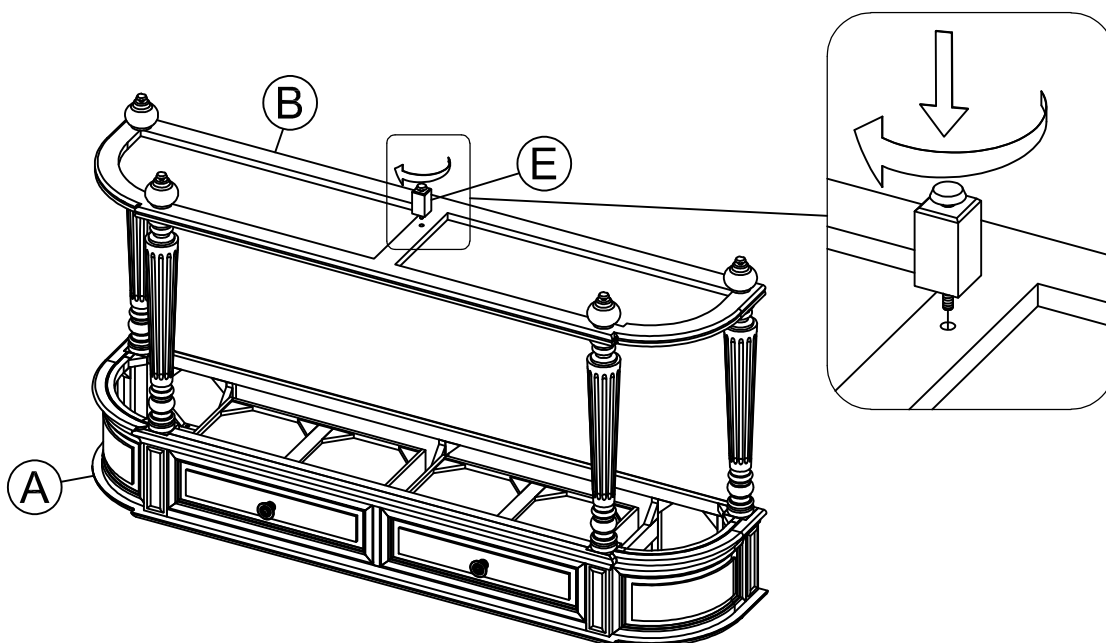

When assembling the four legs (C), ensure that the bolt heads on the legs are oriented downward, then screw them into the four holes on the underside of the table frame (A) and tighten securely.

Step 4

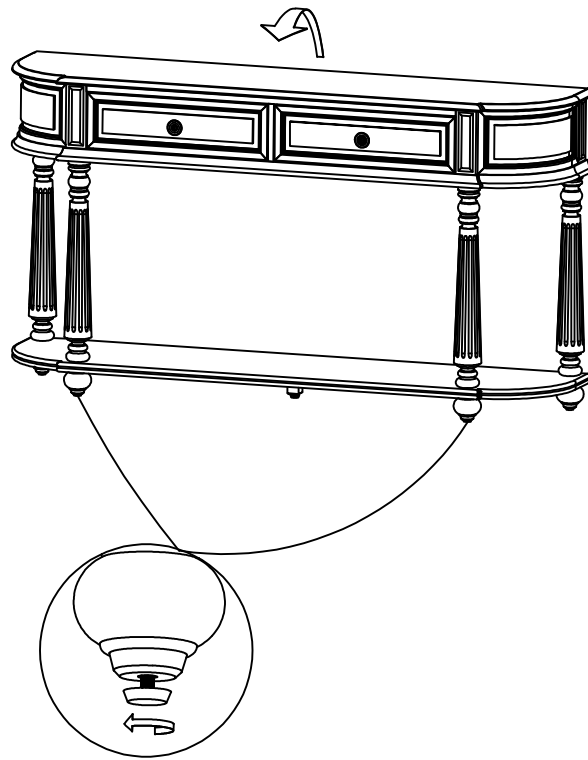

Assemble the shelf frame (B) with the top facing down, so that the 4 holes align with the round holes on the top leg (C). Insert the leg bolts (D) into the holes on the shelf frame and tighten them.

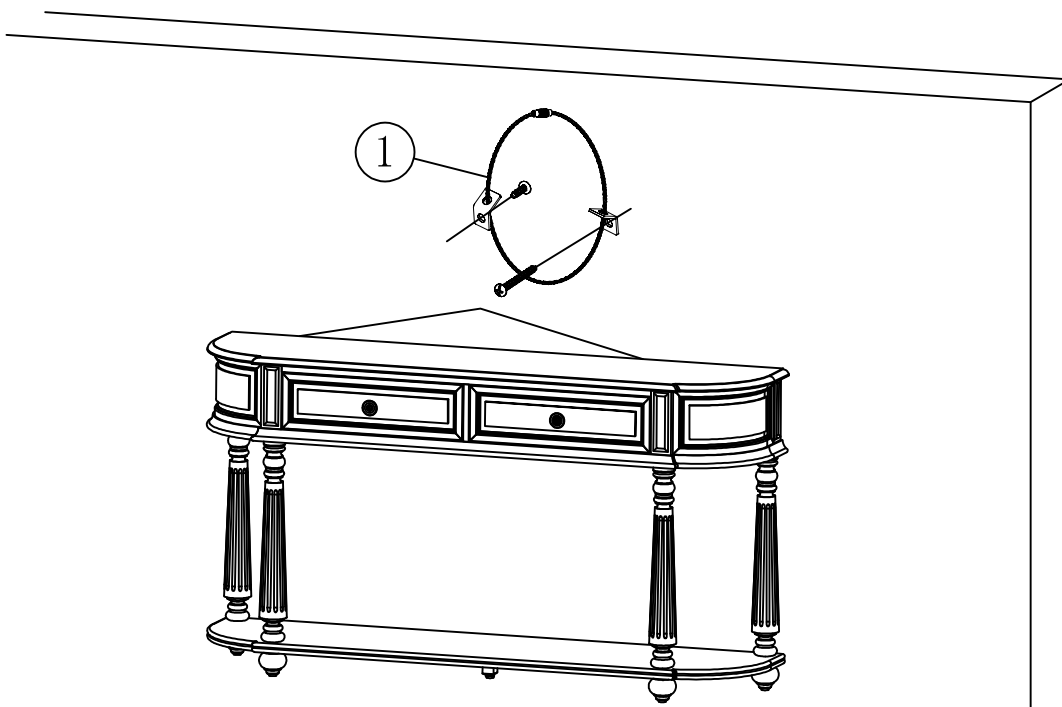

Step 5

Attach the middle leg (E) by inserting the bolt correctly into the drilled hole on the shelf frame (B) and tighten it.

Once the table is fully assembled, flip it over. Observe which leg is not flush with the floor and adjust the knob underneath.

Attach the two anti-rollover cables according to the instructions in the carrying bag.
