ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1.Screw the lamp head onto the iron frame sphere.
2.Place the glass over the lamp cup teeth, adjust its position, and secure it with the outer ring.
3.Thread the bracket screw through the hollow iron ring and secure it with a locknut.
4.Attach the suspension rod to the lamp body, adjusting its length as needed.
5.Secure the ceiling plate to the suspension rod.
6.Use mounting screws to fix the mounting plate to the electrical box.
7.Connect incoming and outgoing wires with wire caps. (Note: Connect black wires (live) to black, white wires (neutral) to white, and ground wires to the grounding terminal. Avoid exposed wires during connection.)
8.Use a screw to secure the ceiling plate to the mounting plate.
9.Screw the bulb into the lamp head.
10.Turn on the power to test the bulb.
Installation is complete.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
