Place our Kano Black Large Rhino on a shelf or atop a stack of coffee-table books and watch its dark silhouette make a commanding statement. The decorative sculpture is made of cast aluminum that has been treated to a textured matte black finish. The mottled surface brings this rhino with its implied features an extra dose of charm and the tried-and-true feeling that it was manufactured during a time when souvenirs from the great continent were prized possessions. We offer the Kano in several sizes and finishes.
