

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

NOTES: 1. Before installing, consult local electrical codes for wiring and grounding requirements.
2. READ AND SAVE THESE INSTRUCTIONS.

Installation Steps

Turn off the power at fuse or circuit box

Assembly of the fixture body

Check if all the accessories are included.

Assembly of the fixture body

Step:01. Secure the pegboard to the junction box with the screws on the kit.

Step:02. Pull out the source wires from the outlet box. Make wire connections using wire nuts as follows:

---Connect the hot wire (usually black insulation) from the fixture to the black wire from the power source.

---Connect the neutral wire (usually white insulation) from the fixture to the white wire from the power source.

---Attach the fixture grounding wire (usually bare wire) connect it to the house grounding wire with the wire nut.

--- Carefully put the wires back into the outlet box.

Step:03. Put the whole lamp on the plate, and then use the screws to align the teeth on the side of the plate to twist in (without a screwdriver).

Step:04. Screw all the inner metal teeth into the pre-drilled holes in the lamp body.

Step:05. Install the decorative glass flower according to the picture, use the nut to fix the locking

Step:06 Install E12 bulb (not included). Check relamping label at socket area or packaging for maximum allowed wattage.

Attention

1. Please install it by a licensed electrician.
2. Due to the different display, the actual color can be different from the image.
3. Due to the manual measurement of lamp body size, there may be a deviation of 1/2 inch.
4. If there any quality problem, missing parts or other something wrong of the item, please feel free to contact us and we will try our best to help you.
