Item Name: Evo Oil Sprayer Bottle, Non-Aerosol for Olive Oil and Cooking Oils, 18-ounce Capacity  
By: Delta Industries

---

Evo Non-Aerosol Oil Sprayer dispenses any cooking oil and vinegar in unique fan pattern without any harmful propellants or chemicals for healthy foods

Beautiful ergonomic design by Michael Graves Design Group; BPA, Latex, lead, DEHP-free plastic; won't clog or shatter; Prop 65 compliant

Consistently dispenses 1.35-milliliters per spray; unique fan pattern covers more cooking surface with less oil; twist-on funnel for mess-free filling

Prepare healthy meals with vegetable, olive, canola, peanut or sesame oil and balsamic vinegar; refillable and reusable; more economical than aerosols

Includes 3 reusable bands to label 5 popular cooking oils and balsamic vinegar, plus twist-on funnel; recyclable; hand wash in warm, soapy water

---

Evo Non-Aerosol Oil Sprayer Bottle, the world's first non-aerosol trigger sprayer with a unique fan-shaped spray, easily dispenses cooking oil without harmful additives, propellants or chemicals. Beautifully designed by Michael Graves Design Group (MGDG) for display right on the counter. Or, it's slim enough to store in the fridge. Its generous 18-ounce capacity keeps the most used healthy cooking oil at the ready, like EVOO (extra virgin olive oil), canola oil, avocado oil, grapeseed oil, even infused oils with herbs and spices. Great for balsamic vinegar, lime juice, and cooking wine too. Makes preparing healthy meals and practicing portion control easier! Evo allows complete control over calories, nutrition and food purity. Every pull of the trigger delivers a precise 1.35-milliliters in a unique fan pattern that covers more cooking surface with less oil. The scalloped trigger offers a natural ergonomic feel and secure grip. The handy screw-on funnel makes filling and changing contents easy, and hooks onto the oil container's handle between uses. The 3 reusable, washable bands clearly identify contents. Helpful anywhere food is being prepared, cooked and served for easy indoor and outdoor lifestyle. Coat vegetables for roasting or broiling, flavor fillets for baking or steak for grilling, finish foods before serving, and apply salad dressing. Easier to use than a traditional oil vaporizer or oil mister. No pumping, priming, or messy, clogged oil dispensers! Simply fill and firmly pull the trigger for consistent, even coverage. Made from BPA, Latex, lead, DEHP-free plastic and Proposition 65 compliant, Evo is durable, food safe and 100-percent recyclable. It won't shatter if dropped like glass spray bottles can. More economical than aerosol cooking spray. Stores easily in the fridge. Hand wash in warm, soapy water. Includes reusable 18-ounce sprayer bottle,

ergonomic precision trigger, 3 reusable label bands, and handy twist-on funnel.
