

Installation steps:

- A:** Unscrew the screws(1) to take off the bottom cover(2).
- B:** Use screws (3) to fix the mounting bracket(4) to the junction box.
- C:** Use wire connectors(6) to connect the BLACK wire and home LIVE wire, connect WHITE wire and home NEUTRAL wire. NOTE: The bare wires can NOT be exposed to prevent leakage. Connect the ground wire(8) and the home ground wire onto the mounting bracket(4) by using the green screw(7).
- D:** Attach the mounting bracket bolts(9) to ceiling plate(10), then secure the light fixture to the ceiling with nuts(11).
- E:** Install the light bulb (12) (not included) into the socket(13) as indicated, then turn on the light to check whether the light fixture is working properly; finally, connect the bottom cover(2) to the screw tubes(14) with the screw(1).

Safety Information:

Please turn off the power before installation and read the manual carefully. Once the installation is complete, restore power to the electrical circuit and test the pendant light to ensure it is functioning properly. If the light does not turn on, double-check the wiring connections and circuit breaker/fuse box. We advise you to contact professional electricians to install it for safety purposes.

Important Notes:

Please use this product according to its intended purpose, do not retrofit or remodel the product.

Always follow local electrical codes and regulations when installing electrical fixtures.

The warranty does not cover if the failure is caused by a third-party product or natural disasters.
