

New Cat Condos

Assembly Instructions

Package Contents:

- 1 - Base
- 1 - Circular Perch
- 1 - Rope Post

Follow these easy steps:

1 In a large, open area, open the box and remove all contents. Take the rope post and screw it into the bolt of the base by turning in a clockwise direction. As the post begins to feel snug, continue to turn the post slowly to avoid damaging, twist until tight. (See figure 1)

2 Take the circular perch and screw it into the rope post by turning in a clockwise direction. As the perch begins to feel snug, continue to turn the post slowly to avoid damaging, twist until tight. (See figure 2)

***** As you tighten the top perch, the rope post may shift. You may need to hold the lower rope post steady as you tighten the top perch to ensure proper alignment. It is helpful to place your foot against the lower post so it will not shift.
