No.	Descriptions	Q'ty
01	Faucet	1
02	Tube	1
03	Decorative cover	1
04	Seat	1
05	Hose	1
06	Hand shower	1
07	Supply hose	2
08	Expansion anchor bolt	3
09	2.5mm Allen key	1
10	Instruction sheet	1

Step 1 Use the seat (01) as a template, mark three holes (A) on the floor.

Step 2 Drill three holes (A) on the floor. Install the expansion anchor bolts (01) into the drilled holes.

Step 5 Thread the red hose (A) to hot water supply pipe. Thread the blue hose (B) to cold water supply pipe. Use lock nuts (01) and washers (02) to attach the seat (03) to the expansion anchor bolts (04). Move decorative cover (05) down to cover the seat (03).

Step 3 Insert the supply hoses (01, 02) through the tube (03). Screw the supply hoses (01, 02) on the faucet. Tighten the tube (03) to the faucet (01).

Step 4 Place decorative cover (04) outside of the tube (03). Tighten the seat (05) to the tube (04).

Step 6 Insert rubber washer (02) to hose (01) and thread them to the handshower bridge. Thread washer (04) and hose (02) to handshower (03). (Figure A). Align spout (05) to desired position using allen key (06) & allen screw (07). Remove aerator (08) using tool (09). Turn on water supplies. Check for leaks. Turn on the faucet handle for one minute to flush debris from faucet. Turn off faucet handle and re-assemble the aerator in place.

Notice

Do not abuse the product which might cause irreversible damage or leakage.

Keep away from rough objects, sharps, acid and alkali liquids which might cause surface damage and corrosion.

Follow the instruction sheet carefully, please don't dismantle the product which might cause irreversible damage.

Please clean the aerator often.
