To adjust the door in an up down direction, loosen the screw on the mounting plate as shown. You may need to loosen 2 hinges in order to perform this adjustment. Push the door up or down to preferred position before retightening it.

To adjust the door in a front and back direction, loosen back screw completely. Push the door and retighten the back screw.

To adjust the door in a left right direction, adjust the front screw.

Step 16

We have included a tipping restraint hardware set for this unit. You must install this hardware to prevent accidents or injuries resulting from the unit falling. When properly installed, this restraint can protect against the unexpected tipping of the unit due to small tremors, bumps, or climbing. We strongly recommend mounting this hardware to a wall stud and your unit.

CARE

INSTRUCTIONS

If treated with respect and love, your furniture will last you a long time. Each piece requires light maintenance to maximize its longevity.

Here are a few quick tips before using this product:

- The recommended weight limit for the cabinet top is 75 lbs and 26 lbs for each storage compartment.
- Avoid uneven weight distribution for a long time as it may cause damage to the product's shape.
- Check and tighten the camlock and screw periodically, as it may lose over time.

How to take care of it?

- Avoid direct sunlight or use curtains or blinds to limit sun exposure to the product.
- Clean the product regularly with a dry, soft cloth.
- Avoid using the abrasive or liquid cleanser.
- Spillage may damage the surface. Clean immediately with a dry cloth.
- We recommend using placemats or coasters underneath glasses, cups, bowls, or plates to prevent scratches to the table surface.

Follow the care instructions and look after your furniture, in return, your furniture will look after you.
