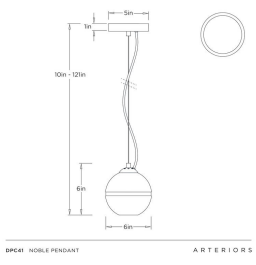
NOBLE PENDANT

DPC41

H: 10 IN
Dia: 6 IN



The Noble Pendant achieves a sophisticated balance between structural gravity and contemporary form, resulting in a design that is both striking and composed. A thick globe of sculpted clear crystal serves as the centerpiece, featuring a carved-out core that houses the light source to produce a brilliant, filtered glow. Suspended by a sleek cloth cord and accented by a stainless-steel band in a polished chrome finish, this piece delivers a clean, contemporary presence with a refined interplay of material and light.
