Application

It can be used for storing books, precious souvenirs, displays, miniature potted plants, photo frames, and other items. It is ideal for corridors, balconies, living rooms, study rooms, bedrooms, nurseries, children's rooms, and other places.

Notes

1. Please avoid frequent instability and looseness of the structure
2. Please avoid direct sunlight as much as possible
3. Do not place furniture directly next to air conditioning or heating as this can lead to warping and cracking
4. Please allow the slight color difference caused by the shooting light and 1-3 cm error due to manual measurement, and make sure you do not mind before ordering.
