Version : 1.1

# Package Contents

Plates and iron components

Assembly tool kit

Instruction manual

## Precautions

1. Avoid long-term direct sunlight exposure

2. Stay away from fire

3. Keep away from sharp objects

4. Keep infants/children away from assembly parts to avoid choking and suffocation.

5. Keep away from corrosive substances

6. Please use the correct screws, otherwise the plate will be damaged.

7. Prevent objects from being damaged by immersion in water

8. Prevent object collision and damage

9. An electric drill is recommended for installation

# Problems You May Encounter

| PART              | PROBLEM                                                                      | SOLUTION                                                                                                                                                                                                                                                                                                                     |

## Additional instructions of LED light bar

x1

**Row insertion**

x1

**Light strip**

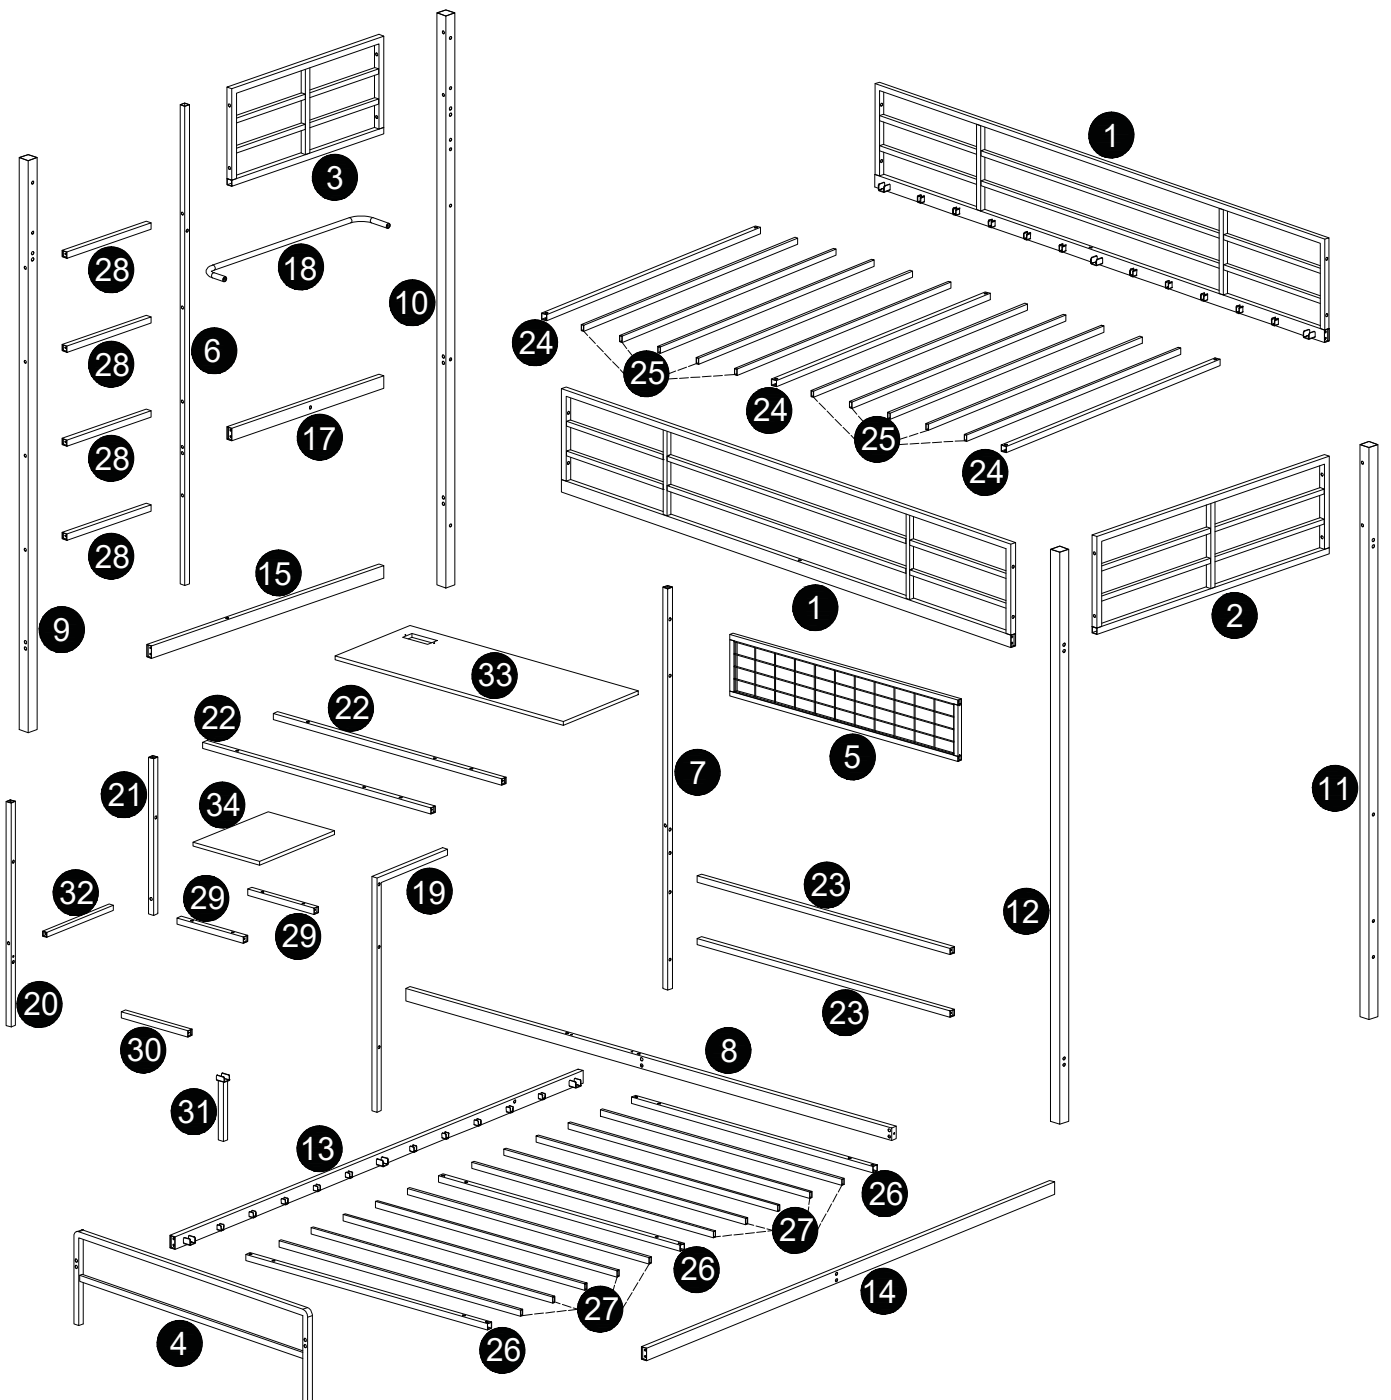

**Note:**

1. Should be assembled on flat ground to keep balance.
2. Before completing the installation, do not tighten the screws.

**Before starting the assembly,  
you must read the whole manual  
and follow the instructions**

**It needs at least  
two people to install.**

1

Be careful not to overtighten the screws.
