

Installation steps:

1. Tighten all lamp holders and lamp arms to the lamp body.
2. Screw the accessory round ball lamp arms into the lamp body.
- 3-5. Pass the power cord of the lamp body through the round tube and secure the round tube to the lamp body (choose an appropriate wiring length based on the floor height).
6. Pass the power cord of the lamp body through the movable joint and iron cover, then tighten the movable joint onto the round tube.
7. Install the suspension plate onto the ceiling junction box using screws.
8. Connect the main wire and ground wire of the lamp body to the reserved wires in the junction box.
9. Cover the mounting bracket with the iron cover, leaving the screws exposed.
10. Tighten the exposed screws with nuts to secure the lamp body to the ceiling.
11. Install all light sources on the lamp holder (without bulbs).
12. Install all lampshades.

Notice:

1. Before installation, please check whether the parts are complete and whether the lamps are in good condition.
2. Cut off the power supply before installation, and then perform wiring.
3. Install the lamp body first, and then install the power supply.
4. Installation and maintenance must be carried out by professional and technical personnel.
