

360 ROUND HORIZONTAL BAR TRAMPOLINE

KEEP THESE INSTRUCTIONS

WELCOME TO BUY THIS PRODUCT, IN ORDER TO
USE THIS PRODUCT CORRECTLY, PLEASE
FOLLOW THE INSTALLATION STEPS TO INSTALL.

- 36. Tie up your hair.
- 37. When the air is dry, repeated rubbing on the rampoline mat or net may generate static electricity. This does not pose any risk for users. To limit the generation of static electricity:
 - Ensure that the trampoline frame is in contact with the ground. If necessary, you can use an electrical conductor to link the frame to the ground.
 - Avoid repeated contact with the net.
 - Avoid wearing synthetic or wool clothing.
- 38. Check your fitness level with your medical practitioner.
- 39. Our company does not accept any liability for injuries or damage inflicted on a third party or property resulting from misuse of the product.
- 40. The owner is responsible for ensuring that all users of this product are properly informed as to how to use this product safely.
- 41. If you experience pain or dizziness, stop exercising immediately and consult a doctor.

MAINTENANCE

The checks specified below should be carried out at the start of every season and at regular intervals during the season. Failure to carry out such checks may result in serious injury.

- 1. Check that the bolts are correctly screwed and rescrew if necessary.
- 2. Check that the springs are intact and cannot come unhooked when jumping.
- 3. Check that the circular protective pad covers the springs.
- 4. Check that the bolt and edge protection caps are in place and replace if necessary.
- 5. Check the cord used to secure the net. Danger of suffocation.
- 6. Check that the net, trampoline mat and all protective elements are in good condition and capable of supporting the user's weight.
- 7. Replace the net, trampoline mat and protective elements every 3 years.
- 8. Any defective parts must be replaced in accordance with the manufacturer's instructions.
