

Maintenance Tips

Clean your spa cover monthly with mild dish soap or hand soap diluted in water. Hose the cover off and dry with a towel.

Use a UV protection for Vinyl to keep spa cover conditioned. **do not use a silicone-based cleaner.**

Use a spa cover lifter to avoid damage while moving it.

Remove snow accumulation of 12+ inches.

Mildew can be removed with a vinegar solution.

Do not use an abrasive sponge. Instead, use a small, clean hand towel, regular sponge, or soft bristled brush.
