

## Emergency Exit Light by Wen Lighting

This Square LED emergency light emits more light with a miniature-sized fixture and consumes significantly lesser energy than any traditional equivalent. This LED emergency light has 12 pieces of SMD LEDs embedded inside, with a total power consumption of only 2.5W. One of the outstanding features of this emergency light is -- the lamp remains turned 'ON' for more than 90 minutes after shutting down of the power supply -- made possible through a 3.6V 1000mAh nickel-cadmium battery.

Built to last for more than 50,000 hours, it's an energy-efficient, cost-effective and low maintenance product. The product is UL rated for safety against fire. This product comes with a 2-year manufacturer warranty.

## Features

MPN	Wen Code	Wattage	Voltage	Lumens	CCT	CRI
EX002	WEN-7033A.1pk	2.4	AC120-277V	180	7500K	CRI85

- Available color - White.
- Power consumption - 2.5W; an energy-saving product.
- The product delivers 181 lumens to achieve high level of brightness.
- With an IP20 rating, the product ensures complete protection against dust particles up to 12 mm, ideal for indoor applications.
- The strong battery power provides for more than 90 minutes of lighting after power failure.
- This LED emergency light can easily operate between 0C~40C temperature.
- The product is protected against overcharge and over-discharge - helps elongate battery life.
- UL-94V-0 rating for complete protection against flame or fire.
- Applicable for an input voltage of 120-277V AC power.
- 2 years of hassle-free, manufacturer's warranty.
- This LED emergency light has an injection-molded thermoplastic ABS housing to keep the product protected from external impact, heat, shock, and scratch.

## WARNINGS AND CAUTIONS

- Turns power off before inspection, installation or removal. Risk of electric shock do not use where directly exposed to water or weather.
- Suitable for damp locations.
- This device is not intended for use with emergency exit fixtures or emergency exit lights.
