

10-Inch Ring Light Assembly Guide

Included Parts

1. 10-inch Ring Light (USB powered)
2. Ball Head Connector
3. 360° Flexible Phone Holder
4. Tripod Stand

Step-by-Step Assembly

1. Set Up the Tripod

- Unfold the tripod legs outward until they are fully spread and stable.

2. Attach the Ball Head

- Screw the ball head onto the top of the tripod until tight.
- Adjust the angle using the side knob.

3. Mount the Ring Light

- Screw the ring light onto the ball head connector.
- Adjust the angle and tighten the knob.

4. Install the Phone Holder

- Insert the phone holder into the center mount of the ring light.
- Tighten and adjust the flexible arm as needed.
- Place your phone into the holder.

5. Power and Controls

- Plug the USB cable into any USB power source.
- Use the in-line controller for:
 - Power ON/OFF
 - Brightness adjustment

- Color temperature modes

Your ring light is now ready to use!
