

PLGL Vortex

The PLGL Vortex is the latest evolution in Proline’s insert hood lineup—crafted for a clean, built-in aesthetic with no visible flange. Its 18" depth offers excellent ventilation coverage across a wide range of cooktops and cooking styles, while six available widths (from 28" to 58") make it a perfect fit for custom cabinetry. With a two-piece design that separates the hood body from the motor housing, installation is easier, lighter, and more flexible than ever before.

Choose the airflow that fits your cooking style with the option of either a 600 or 1200 CFM motor, both built for high performance and easy future access. Brilliant sealed 3W gimbal LED lights illuminate your cooktop, while four-speed push-button controls give you total ventilation control. Crafted from high-quality 430 stainless steel and equipped with dishwasher-safe baffle filters, the Vortex combines convenience, durability, and versatility—all in one sleek package.

Configuration and Dimensions

Hood Type	Insert Mount
Sizes Available	28 34 40 46 52 58
28" Dimensions	28.5" W x 18" D x 4" H
34" Dimensions	34.5" W x 18" D x 4" H
40" Dimensions	40.5" W x 18" D x 4" H
46" Dimensions	46.5" W x 18" D x 4" H
52" Dimensions	52.5" W x 18" D x 4" H
58" Dimensions	58.5" W x 18" D x 4" H

Features

Control Type	Push Buttons with LED Display
