

ARC LAMP

Assembly Instructions

1. Lay out all parts on a flat surface carefully.
2. Put **Pole B** into **Base A** and turn clockwise to tighten.
3. Connect **Connector C** and put **Arc Poles D** into **Pole B**, then turn the screw clockwise to tighten as shown.
4. Put the wire into the slot of the **Stretcher**, screw the **Bulb (Excluded)** into the socket, then put the **Shade** cover onto the **Stretcher**.
5. **Caution:** Use **TYPE A 60w*3** bulbs max. (bulb not included)

IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted.
DO NOT ALTER THE PLUG.
