Tips

When installing the product, use a soft surface (such as carpet or cardboard) to avoid scratching or damaging the surface of the product.

Please try to use a manual screwdriver instead of electric screw driver. A manual screwdriver can be used to better control the tightness of the screws.

Do not use any glue.

The product is unstable before it is assembled. Please pay attention to the product installation sequence, and align all screws and screw holes before tightening.

The structure of this product can not meet the requirements of children climbing.
