|                                                                                                                 |                                                                                                                     |                                                                                                                     |                                                                                                                                |  X 1PCS                                                                                            |  X 3PCS<br> X 3PCS |

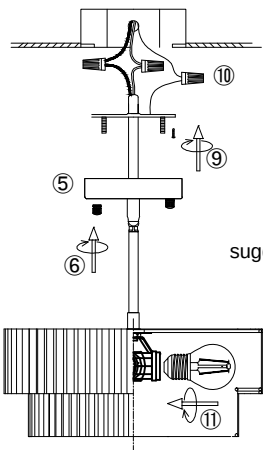

1. Let the wire of the fixture ③ go through the lampshade ① and tube ④, rotate the tube ④ to fasten the lampshade ① to the fixture ③.

Please operate with gloves to avoid leaving stains on the lampshade.

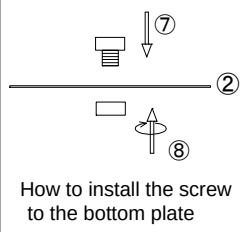

2. Rotate to install the canopy ⑤ to the fixture.  
3. Pull down the inner lampshade and adjust it straight.

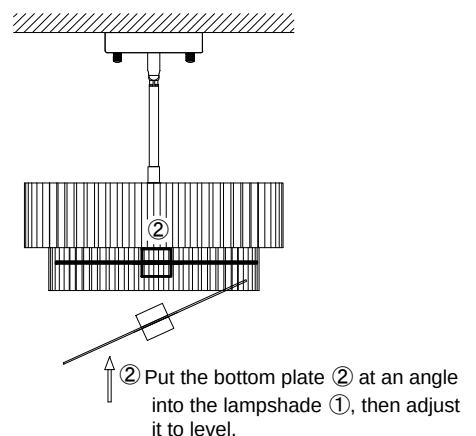

suggest to use G45 pingpong bulb !

4. Install the bracket to the ceiling junction box with screw ⑨.  
5. Connect the wire to your home line with cap connector ⑩.  
6. Install the fixture to the bracket with cap nut ⑥.  
7. Install the bulb ⑪. (bulbs are not included in the package)

How to install the screw to the bottom plate

8. Install the screw ⑦ to the bottom plate ② with end cap ⑧. (when tightening screws, do not use too much force so as not to strip the threads of the screws)  
9. Install the bottom plate ② to the fixture.

**Please read carefully before installation!!!**

**Note : Please make sure that the electricity is powered off during installation !**  
**Only a professional electrician should install this kind of product !**
