IF YOU HAVE PURCHASED A **BLACK STRAINER**, PLEASE MAKE SURE TO READ THESE INSTRUCTIONS CAREFULLY

**1**

Place foam gasket and strainer body on the top side of drain opening. Alternatively Plumber's Putty could be used instead of foam gasket.

**2**

From underneath align outer basket with strainer body using center screw, ensure the rubber gasket is under the sink flange, hand start screw to hold components in place.

**3**

From the top side of the sink and using a large flat head screw driver, secure and tighten the screw until strainer body is center and flush to sink drain hole.

**4**

Insert tail pipe into home's plumbing and bring side with the nut against strainer outer basket.

**5**

Tighten tail pipe nut to strainer body, ensure the rubber gasket is present.

**6**

Run water and confirm no leaks.

## CARE AND CLEANING

1. Rinse the strainer with water.
2. Coat the strainer with baking soda, Flitz or Barkeepers friend.
3. With sponge, scrub strainer and all sink walls in the direction of the steel grain.
4. Spray on undiluted vinegar.
5. Rinse again.
6. Buff with a few drops of olive oil.
7. If necessary, repeat procedure.
