

PROCESS

FINISH NOTE

- THERE ARE MULTIPLE STEPS TAKEN TO CREATE THIS UNIQUE RAINBOW BRONZE FINISH WHICH IS ALL DONE BY HAND.
- THE RAW ALUMINUM CASTING, HAVING A SLIGHTLY ROUGH SURFACE, IS DIPPED INTO SEVERAL DIFFERENT CHEMICALS TO CREATE THE MULTICOLOR "RAINBOW" LOOK.
- CLEANING AFTER EACH STEP IS ESSENTIAL IN HELPING MAKE THE CASTING LOOK WEATHERED AND ANTIQUE.
- A CLEAR LACQUER COATING IS THEN ADDED TO MAKE IT MORE ENRICHED AND ACHIEVE A METALLIC LOOK.
- THIS UNIQUE PROCESS ENSURES A DIFFERENCE IN COLOR FROM PIECE TO PIECE. THE RAW TEXTURED SURFACE ALSO GUARANTEES THE SAME.
- SLIGHT DEFECTS ARE NOT ONLY INHERENT, THEY ARE TO BE EXPECTED.
