1

2

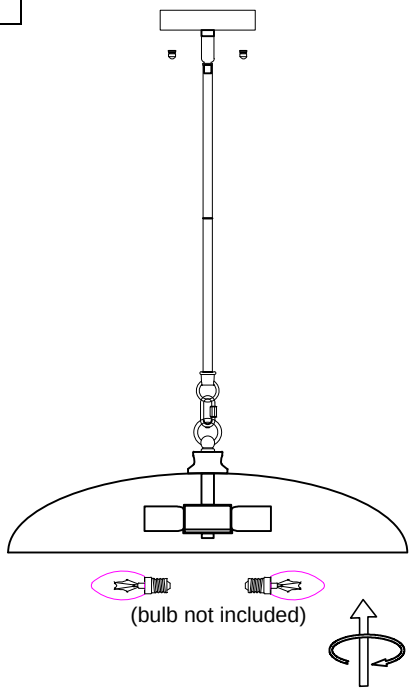

Step 2

1、Connect the power wire of lamp body to the reserved Power cable, pay attention to the positive and negative poles

2、Fix the lamp body to the ceiling with M4 nuts （B）

3

Step 3

1.Tighten the E12 bulb (bulb not included) to complete the installation.

Step 1:

1.First connect the suspension round tube（E） with hanging hook to the lamp body （F）, then select suspension round tube（E） of appropriate length for splicing.

2.After the suspension round tube（E） installation is completed, connect one end to the swing part on the ceiling plate（C）.
