A technical line drawing of a three-compartment drawer assembly, shown from an isometric perspective. The assembly consists of a long front panel, a long back panel, and two vertical dividers that create three rectangular compartments. The front panel features a series of small, evenly spaced rectangular notches along its bottom edge. The back panel has a similar series of notches along its top edge. The dividers are positioned to divide the interior space into three equal-width compartments. The drawing is a simple black-and-white line art, typical of a technical specification or a design sketch for a furniture component.

A technical line drawing of a three-shelf cabinet, labeled 'Fig. 1'. The cabinet is shown in a three-quarter perspective view. It features a tall, narrow body with a flat top panel and a decorative base. Inside, there are three horizontal shelves. The drawing uses simple lines to represent the structure, with small circles indicating the locations of screws or fasteners on the interior side panels.
