Energy Within Me 1

D2472S49528-4023

Energy Within Me 1 is a captivating biomorphic abstract print that presents a duality of perception and interpretation. The left side of the composition is reminiscent of natural elements, perhaps cellular structures or microscopic organisms, but interpreted through an abstract lens. Bold colors in ultramarine blue, slate grey, and dark tan add depth. In contrast, the right side of the print allows for a clearer distinction between biomorphic shapes with non-representational objects rendered with slightly more definition. Earthy colors are present here in rust, sage, and fawn.

An original addition to ART by TA, Energy Within Me 1 is a striking piece that invites the viewer to question, interpret, and ultimately engage with the biomorphic world in an abstract way. A beautiful companion piece to Energy Within Me 2.
