ASSEMBLY INSTRUCTIONS

INSTALLATION TIPS

- Please read the instructions carefully before installation.
- After reading, keep them properly for future use.

Please prepare the following aids:

1. Electric drill (optional, improve efficiency)
2. Please use power tools reasonably to avoid injuries.

Installer recommendations:

1. It is recommended that two people work together to install for higher installation efficiency.
2. Improve the safety of the assembly process and better complete the alignment and lifting operations.

Installation precautions:

When tightening the screws, avoid over-tightening to damage the plate.

INSTALLATION INSTRUCTIONS

Three-in-one Usage Explanation:

1. Use a screwdriver or a power tool to install screws (at least 10mm deep) at the indicated positions and panels.
2. Screw the bolts into the pre-installed inserts.
3. Insert the assembled bolts into the corresponding holes on the other panel, then press the eccentric wheel into the 15mm diameter hole on the side with the hole alignment.
4. Use a Phillips screwdriver to tighten the eccentric wheel clockwise.

LIGHT STRIP INSTALLATION

1. Take out the light strip and remove the protective cover at the end.

2. Align the end of the light strip with the wooden board and press it into the groove of the wooden board.

3. After the light strip is installed, make sure it is flush with the wooden board, connect the USB to the power supply, and press the switch.
