First fix the anti-rewind screw in the reserved hole of the product.

then, use a ruler to measure the approximate height of the product on the wall, and then mark it with a pen.

Then use a tape drill to make holes in the wall that are suitable for the product screws.

Then, put the expansion bolt into the hole

Finally, pass the matching screws through the "anti-rewind" and tighten them to fix them on the wall.

Please tear off the film on the outside of the mirror.
