

32" & 36" PNEUMATIC HEIGHT ADJUSTABLE ROUND CAFÉ TABLES LX-PNADJ-32SQ | LX-PNADJ-36SQ

Luxor's pneumatic height adjustable café tables feature durable construction, a contemporary, easy to clean white finish, and contoured edges making them ideal for business, retail, or educational environments. These multi-purpose round tables smoothly adjust in height with the aid of a pneumatic air cylinder allowing them to be used in seated or standing positions.

Available with 32" and 36" diameters, these popular café tables are designed to support a static load of 110 lbs. Each table includes a choice of protective leveling glides as well as four 2.5" casters for mobility, making them an excellent choice for collaborative workspaces, social settings, or home use.
