

# Installation Instructions

## TABLE LAMP

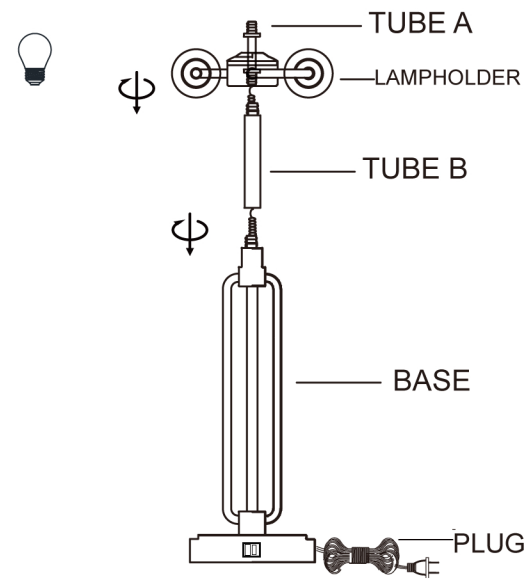

1. Put the **BOTTOM RING** on the table, then attach 3/4 while **LAMP SHADE CLOTH PLATE** around the **BOTTOM RING**.
2. Attach the **TOP RING** to the upper **LAMP SHADE CLOTH PLATE** and the rest 1/4 **LAMP SHADE CLOTH PLATE** to the **BOTTOM RING**. Then fix the place where the **LAMP SHADE CLOTH PLATE** is joined end to end.
3. Insert and thread the **LAMPHOLDER** onto the **TUBE B** by turning clockwise until secure.
4. Please insert the excess wire into iron **Tube B** first, and then turn **Tube B** to the base and turn clockwise to safety.
5. Install 2 Bulbs (NOT Included) onto the LAMPHOLDERS according to the wattage label.
6. Insert and thread the **SHADE** onto the **TUBE A**, Insert and thread the **FINIAL** onto the **TUBE A** by turning clockwise until secure.

**CAUTION** - Refer to the wattage caution label located on the **LAMPHOLDER** for recommended maximum wattage - **DO NOT** exceed recommended wattage.  
**WARNING** - Do not attempt to replace the bulb while the lamp is plugged into a wall receptacle.

## IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (One blade is wider than the other) as a safety feature to reduce the risk of the electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit in the outlet, reverse the plug. If it still does not fit, consult a qualified electrician. Never use an extension cord unless the plug can be fully inserted. Do not alter the plug.

**keep this Instruction for future reference.**
