EL-BWC102-02
TOUCH SCREEN WINE & BEVERAGE COOLER

For those that love both beer and wine, EL-BWC102-02 beverage and wine cooler is the optimal solution. Modern styling features an argon-filled glass door with a black stainless frame. This beverage and wine cooler allows you to set two separate temperatures to provide the optimum conditions for your wine and beverages. The right side of the cabinet has space for up to 58 soda or beer cans while the left side has the capacity for up to 24 of your favorite wines. Convenient temperature controls make setting the ideal temperature a simple task. A french key lock system is implemented with this unit.
