1. The initial password is 000. Align with the scale line of the lock body. Press the button on the top with your hand, and the locking beam will pop up, then you can open it.

2. Use metal to forcefully press against the code-adjusting hole at the bottom until it is in a sunken state, and don't release it.

3. Use metal to press against the lock-hole at the bottom while turning the numbers to set the password you need.

4. Just release the metal that is propping against the bottom, and then the operation will be completed.
