

LED Linear Panel Pendant Light

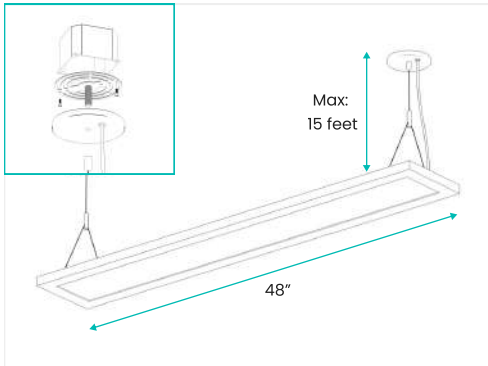

The Linear Panel Pendant has a nearly 'transparent' design and is perfect for the modern office and some advanced interior design. The sleek form sets up a unique "step-dimming", which allows the user to switch from 3000k, 3500k to 4000k with the flip of a switch. Comes with j-box suspension kit per fixture and available with 0-10v dimming.
