

Installation steps:

1-2. Tighten the round tube onto the lamp head assembly
3. Tighten the lifting ring assembly onto the circular tube
4. Buckle the movable buckle into the lifting ring and tighten it
5. Fix the installation bracket to the junction box with screws
6. Connect the main line and ground wire of the lamp body to the reserved line on the junction box
7-8. Cover the canopy on the installation bracket and tighten it with decorative nuts to secure it
9. Use movable buckles to connect the lifting ring group and lampshade
10. Install the bulbs. (Bulb not included)

Notice:

1. Before installation, please check whether the parts are complete and whether the lamps are in good condition.
2. Cut off the power supply before installation, and then perform wiring.
3. Install the lamp body first, and then install the power supply.
4. Installation and maintenance must be carried out by professional and technical personnel.
