Brand: Hooker Furniture

Product Description: With the stunning textured starburst pattern on the doors, you will want to show off the Elixir Buffet throughout your home. Use it in the hall as an entry piece, in the dining room as a buffet, or use this TV-ready piece in the family room as an entertainment center or console. The 4 doors have touch latches, and there are 2 drawers and 2 adjustable shelves behind each set of doors. Ventilated back panel. Accommodates up to 70-inch flat screen TV.

Collection Features: Elixir is a casual contemporary collection that, like its name implies, exudes a feeling of comfort, simplicity and well-being. While Elixir has crisp, clean lines, character and visual interest are also achieved through the use of texture. Textural interest comes from the use of lightly sand-blasted walnut veneer, light texture applied to the metal elements along with a hand-carved texture added to the surface of select pieces such as the oval mirror and the round dining table. The buffet offers a beautiful carved starburst pattern on the doors.

Status: Active

Finish: A serene gray beige finish applied to lightly sand-blasted walnut veneer for an organic and textured look. Distressing includes wire brushing.

Features: Four doors with starburst fronts and touch latch
 One drawer and one adjustable shelf behind each set of doors
 Ventilated back panel

Material: Walnut Veneers and Faux Shagreen

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
