Assembly Steps

OVERVIEW

This Cabinet has multiple parts and may require up to 45 minutes to assemble. To give you an overview of the Cabinet parts, we've provided the above picture to put the various parts in perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Unpack and place all parts on a clean, non-marring surface.

Step 2

With assistance from your adult partner, please carefully place the panels on a clean surface, scratch-free surface as shown, as shown in the above picture.

Step 2.1: Attach Handle (4) to the Door Frame (D) with Bolt (3) using a Screwdriver (12) (Not Provided).

Step 2.2 + step 2.3: Attach Dowel wood (5) to the Side Panel Right (A) and Side Panel Left (B) fixed position.

Step 3

From step 2, attach Back Panel (C) to the Side Panel Right (A) to the wooden dowel position hole. Use Allen Wrench (6) to link the two panel with Bolts (2) and Screws (1). DO NOT: Fully tighten the bolts and Screw

Step 4

From step 3, Using the Allen Wrench (6), attach Side Panel Left (B) into assembly Back Panel (C) as shown above by using Bolts (2) and Screw (1). DO NOT: Fully tighten the bolts and Screw

Step 5

Stand up the assemble in step 4, then using the Allen Wrench (6), attach Top Panel (E) to the assembly in step 4 as shown above by using Bolts (2). DO NOT: Fully tighten the bolts

Step 6

From step 5, Attach Door Frame (D) into the wooden dowel position hole. After open Door Frame. Next using Bolts (2) and screw (1) by Allen Wrench (6) In a sequential manner, gradually tighten all Bolts and Screws until evenly secured

Step 7

From step 6, Rotate the Removable shelf (F) to place it inside the cabinet. as shown in the above picture.

Step 8

After step 7, Put removable shelf inside the cabinet as shown in the picture

Inspect the cabinet and make sure all parts are adequately connect
Your Cabinet is ready for you

Cabinet Restraint Device Installation Instruction

WARNING

Serious or fatal crushing injuries can occur from tipping furniture.
To help prevent tip-over: **ALWAYS** secure this furniture to the wall
using Nightstand Restraint Device.

See product instructions for more ways to help prevent furniture tip-overs.

Usage For Cabinet Restraint Device :

To secure the Cabinet against the wall, affix 2pcs Metal Brackets (⑦)
to the wall and to the Cabinet, then use the Self tapping screws (⑩)
to connect the Brackets (⑦) to the wall. Find details as below:

A : Determine the location where the screws should be inserted into the wall.
Mark the point at the same height and length on the wall as shown above.

B : Affix the Plastic Anchor to the wall

Using a Power Drill (13) (not provided), drill a hole in the wall, then insert a Plastic Anchor (8) into the hole using a Hammer (14) (not provided). Repeat this step to affix the other Plastic Anchor (8) into the wall, as shown above.

C: Affix the L-shaped Metal Bracket (7) to the wall.

Then affix one L-shaped Metal Bracket (7) to the hole in the wall using the Self Tapping Screws (10), Washer (9) and Screwdriver (12) (not provided), as shown above.

Repeat this step to affix the other Metal Bracket (7) to the wall as shown above.

D: Move the Cabinet against the wall. Then connect the L-shaped Metal Bracket (⑦) to Cabinet position in the wall using the Self Tapping Screws (⑪) and Screwdriver (⑫)(not provided), as shown above. The Cabinet Restraint Device is now installed and is ready for use.
