

Step-by-Step Installation Guide

Step 1: Separate Light Components

Gently detach the light head from the light body.

Step 2: Disconnect Wires

Unplug all wire connections between the light head and body.

Step 3: Remove Rubber Gasket

Take off the rubber gasket from the light head.

Step 4: Attach Glass Lampshade

Insert the light head onto the glass lampshade.

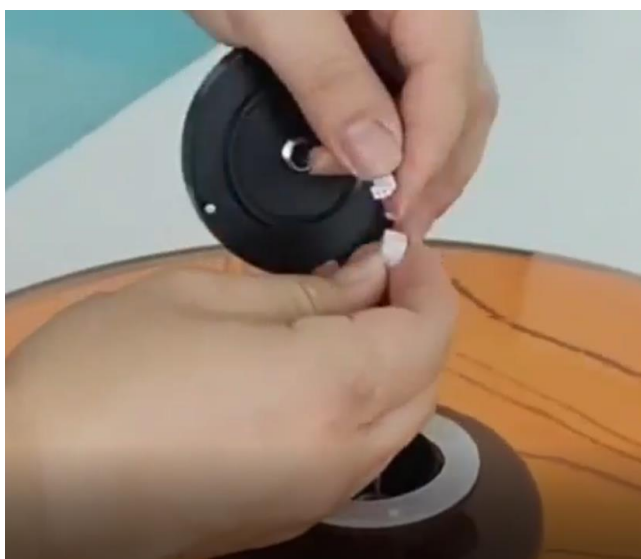

Step 5: Secure with Rubber Gasket

Place one rubber gasket on top of the lampshade.

Step 6: Reconnect Wires

Reattach the wires between the light head and body. Ensure connections are secure.

Step 7: Finalize Setup

Tuck and hide all wires neatly inside the fixture. Firmly tighten the light head to the light body.
