Center Strength 1

D885S17695-1606

Center Strength is an accomplished piece that recalls the work of Dutch American abstract painter Willem de Kooning who played a significant role in the development of Abstract Expressionism, a movement that emerged in the mid-20th century in the United States. This work is characterized by its strong, defined lines that offer a tension between abstraction and figuration.

In keeping with de Kooning's work, Center Strength features the fragmented form of the human figure. The work is rendered in a simple color scheme in dove grey, vanilla, and onyx with a pop of mustard yellow. As the name suggests, the gaze is drawn toward the masculine presence in the middle of the canvas. Part of the carefully curated ART by TA Collection, Center Strength presents a powerful image in a unique and exclusive work of art.
