Hardware Contents

AA Mounting Screws Qty: 6pcs for IN-0110-23-SN
12pcs for IN-0110-26-SN

BB Cord Mounting Clip Qty: 9pcs for IN-0110-23-SN
18pcs for IN-0110-26-SN

Warranty

2-YEAR LIMITED WARRANTY

The manufacturer warrants this product to be free from defects in materials and workmanship for a period of TWO (2) years from date of purchase. This warranty applies only to the original consumer purchaser and only to products used in normal use and service. If this product is found to be defective, the manufacturer's only obligation, and your exclusive remedy, is the repair or replacement of the product at the manufacturer's discretion, provided that the product has not been damaged through misuse, abuse, accident, modifications, alterations, neglect, or mishandling. This warranty shall not apply to any product that is found to have been improperly installed, set-up, or used in any way not in accordance with the instructions supplied with the product. This warranty shall not apply to a failure of the product as a result of an accident, misuse, abuse, negligence, alteration, or faulty installation, or any other failure not relating to faulty material workmanship. The manufacturer specifically disclaims any liability and shall not be liable for any consequential or incidental loss or damage, including labor/expense costs involved in the replacement or repair of said product.

Safety Information

⚠ WARNING AND CAUTIONS

WARNING To reduce the risk of FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS:

- For INDOOR USE ONLY.

- Do **NOT** touch LEDs. Do **NOT** remove the protective LED lens. Do **NOT** look directly at lighted LEDs for any length of time.
- Do **NOT** touch, operate, or install fixture while in contact with water. Not intended for illumination of aquariums. Do **NOT** mount over sinks or stoves.
- Not intended for recessed installation in ceilings or soffits. Do **NOT** mount the light to cabinets having a material thickness less than 1/4 in.
- The low voltage portable cabinet light may be installed inside or under a kitchen cabinet or other built-in furniture when the low voltage Class 2 power supply is located **OUTSIDE** the cabinet and is not concealed and when the line voltage power supply cord is not concealed or run through openings in the cabinet, walls, ceilings or floors. This requirement does not apply to the wiring between the cabinet light and the power unit.
- Do **NOT** attempt to install while plugged in.
- Use only insulated staples or plastic ties to secure cords, route and secure cords so that they will **NOT** be pinched or damaged when the cabinet is pushed to the wall.

CAUTIONS

- Read and understand all instructions and illustrations completely before proceeding with assembly and installation of this fixture.
- All parts must be used as indicated in these instructions. Do not substitute any parts, leave parts out, or use any parts that are worn out or broken. Failure to obey this instruction could invalidate the UL listing, C.S.A. certification, and/or ETL listing of this fixture.
- This fixture is intended for installation in accordance with the National Electric Code (NEC) and all local code specifications.
- Use **ONLY** the supplied LED driver to power fixture.
- LEDs can be damaged by electro static discharge (ESD) shock. Before installation, discharge yourself by touching a grounded bare metal surface to remove this hazard. To avoid damage, do not remove the clear lens over the LED module.
- **DO NOT USE THIS FIXTURE WITH A DIMMING CIRCUIT.** If dimmer controls are present, remove them and replace them with regular electrical switches. If a three-way dimmer is present, replace it with a regular three-way switch. If unfamiliar with electrical installations, it is recommended a qualified electrician do the installation.
- The light sources are non-changeable light emitting diodes (LED). Do not disassemble this product.
- Beware not to exceed the wattage of the LED driver, this is displayed on the driver.

Pre-Installation

PLANNING INSTALLATION

Compare all parts with the parts listed in the Hardware Included and Pack Contents sections. If any part appears missing or damaged, do not install and use this light. Contact customer service.

*****CONSULT A LOCAL LICENSED ELECTRICIAN OR ELECTRICAL CONTRACTOR IF YOU ARE NOT SURE ABOUT THE INSTALLATION.*****

ESTIMATED ASSEMBLY TIME: 20 minutes.

HELPFUL TOOLS:

Locate the desired positions for all units:

Measure and mark the corresponding placement on the mounting surface for all lights. Ensure the light is within 12 in. of another light and the first fixture is located within 6 ft. of the outlet. Make sure everything is properly spaced before drilling screw holes into the cabinets.

Installation (Section A) - Surface Mounting (Wires under a shelf or cabinet)

1 Install the brackets

- Install the brackets (D) in a straight line, recommended distance between each bracket is 8 inch..

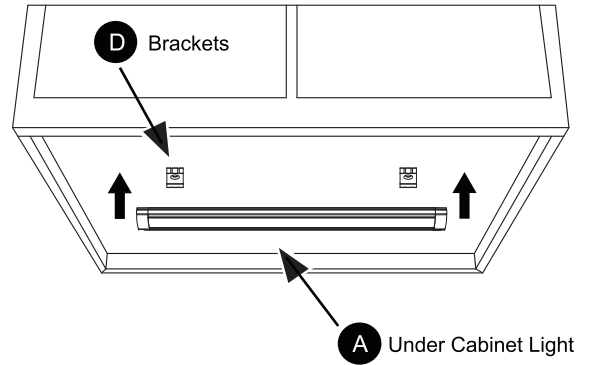

Note:

Fixtures can be installed tool-free by using the double side tape (E).

2 Install the LED under cabinet light

- Push fixture into brackets until you hear it "clicked".

3 Connect the dimmer switch and power cord

- Insert the plug from the power cord (G) into the jack of the dimmer switch (F).

4 Connect the dimmer switch to the first fixture

- Insert the plug from the dimmer switch into the jack of the first fixture.

5 Connect the fixtures

- Plug the other fixtures directly by using the end-to-end connectors (C) or connect them by using the linking cords (B).

Installation (Section A) - Surface Mounting (Wires under a shelf or cabinet)

6 Secure the cords

- Excess linking cords and power cord can be tucked and secured by using the cord mounting clips (BB).

Note:

Proceed with caution when attaching the cord clips to the cabinet, make sure the metal nail does not pierce through the cord.

7 Dimmer switch function

- Press the on/off button to switch the light on and move the slider to adjust the brightness of the lights.

8 Connect the plug to an electrical outlet

- Insert the power plug (G) into an electrical outlet and installation is now complete.

Troubleshooting

Problem	Possible Cause	Corrective Action
Fixture doesn't light.	1. Power is off.	1. Check if power supply is on.
	2. Faulty Switch.	2. Replace switch.
	3. Faulty wire connection.	3. Check wiring.
	4. Damaged or defect LED driver.	4. Replace the LED driver
Fuse blows or circuit breaker trips when light is turned on.	1. Overloaded circuit 2. Short circuit.	Discontinue use and call customer service.
