PRE ASSEMBLY INTRODUCTION

INTRODUCTION AU PRÉ-MONTAGE

INTRODUCCIÓN AL PREMONTAJE

安装前说明

Verification of the hole size of the column before installation:

As shown in the figure, align any end face of the 16PCS column and place it on a plane. Then check the consistency of the pipe end face and hole position indicated by the lines 1/2/3/4/5/6 in turn. If any tube size deviation exceeds $\frac{1}{16}$ " (1.5mm), please contact the manufacturer or dealer for replacement.

Vérification de la taille des trous de la colonne avant l'installation :

Comme indiqué sur la figure, alignez n'importe quelle face d'extrémité de la colonne 16PCS et placez-la sur un plan. Vérifiez ensuite la cohérence de la face d'extrémité du tube et la position du trou indiquée par les lignes 1/2/3/4/5/6 à tour de rôle. Si un écart de taille de tube dépasse $\frac{1}{16}$ " (1.5mm), veuillez contacter le fabricant ou le revendeur pour un remplacement.

Verificación del tamaño del agujero de la columna antes de la instalación:

Como se muestra en la figura, alinee cualquier cara del extremo de la columna 16PCS y colóquela en un plano. A continuación, compruebe la consistencia de la cara del extremo del tubo y la posición del agujero indicada por las líneas 1/2/3/4/5/6 sucesivamente. Si cualquier desviación del tamaño del tubo excede $\frac{1}{16}$ " (1.5mm), por favor contacte al fabricante o distribuidor para su reemplazo.

安装前立柱孔位尺寸验证:

如图示,将16PCS立柱任一端面对齐放置一平面后,依次对1/2/3/4/5/6线条所指示的管端面及孔位进行一致性检查,如果有任一条管尺寸偏差超过 $\frac{1}{16}$ " (1.5mm),就要联系厂家或经销商进行更换。

ASSEMBLY INSTRUCTIONS

INSTRUCTIONS DE MONTAGE

INSTRUCCIONES DE MONTAJE

安装步骤

STEP 1

There is a threaded hole surface! The installation direction cannot be reversed!
Il y a une surface de trou fileté ! Le sens d'installation ne peut pas être inversé!
¡Hay una superficie de orificio roscado! ¡La dirección de instalación no se puede invertir!
有螺纹孔面安装方向不能装反。

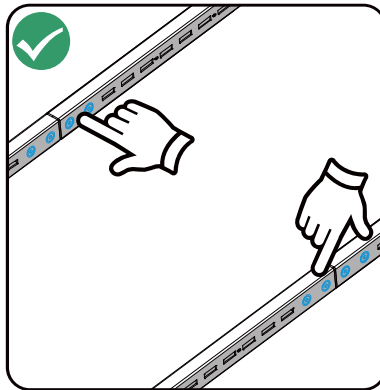

STEP 2

STEP 3

STEP 4

The front and rear columns should be installed in the same direction (correct).

The front and rear columns should be installed in the same direction (correct).

Las columnas delantera y trasera deben instalarse en la misma dirección (correcta).

前后立柱冲孔面要顺向安装 (正确)!

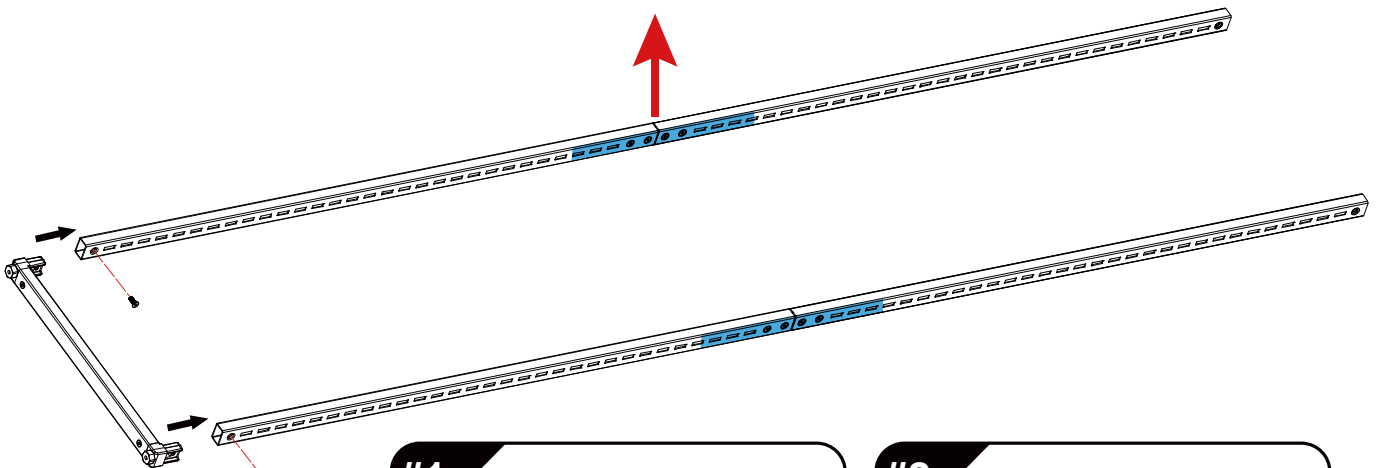

The punching surfaces of the front and rear columns should be installed opposite to each other (wrong).

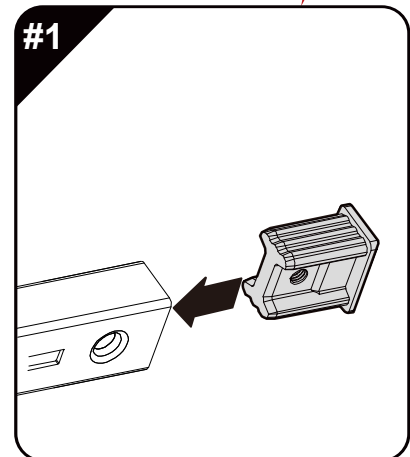

Les montants avant et arrière sont installés en face l'un de l'autre (faux).

Los pilares delantero y trasero están instalados uno frente al otro (incorrecto).

前后立柱冲孔面相对安装 (错误)!

STEP 5

PLAN THE INSTALLATION LOCATION OF THE ENTIRE COMBINATION

PLANIFIEZ LE LIEU D'INSTALLATION DE L'ENSEMBLE DE LA COMBINAISON

PLANIFIQUE EL LUGAR DE INSTALACIÓN DE TODA LA COMBINACIÓN

规划整套组合安装位置

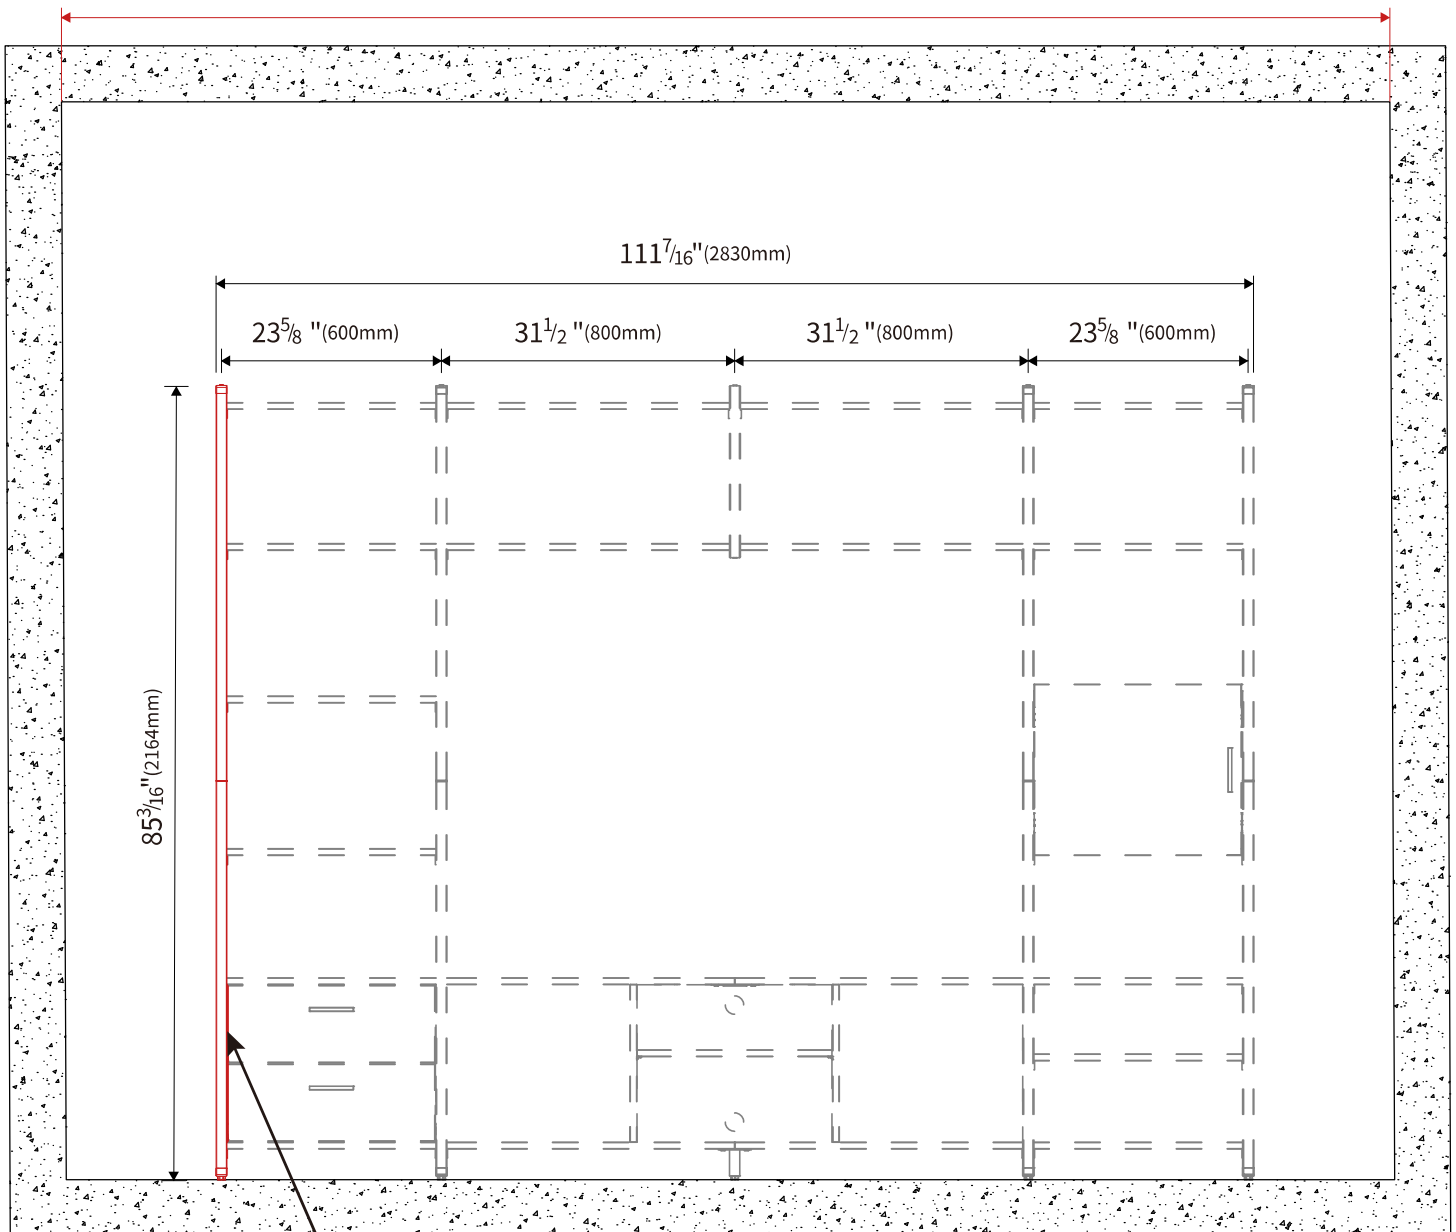

Note: Please pre-determine the approximate installation position of the first column according to the actual width of the installation wall.

Remarque : Veuillez déterminer à l'avance la position d'installation approximative de la première colonne en fonction de la largeur réelle du mur d'installation.

Nota: Predeterminar la posición de instalación aproximada de la primera columna de acuerdo con el ancho real de la pared de instalación.

注意: 请根据安装墙面实际宽度预先确定第一条立柱大致安装位置。

This column is the first column to be installed (on the left).
Cette colonne est la première colonne à être installée (à gauche).
Esta columna es la primera columna que se instalará (a la izquierda).
此条立柱为首先要安装的第一个立柱(在左边)。

STEP 6

STEP 7

After placing the column vertically against the wall, press firmly or tap the end of the horizontal tube on the top of the column with a rubber hammer until the patch convex pin placed on the nozzle leaves a pit mark on the wall and then remove the column.

Après avoir placé la colonne verticalement contre le mur, appuyez fermement ou tapotez l'extrémité du tube horizontal sur le dessus de la colonne avec un marteau en caoutchouc jusqu'à ce que la goupille convexe de patch placée sur la buse laisse une marque de piqûre sur le mur, puis retirez la colonne.

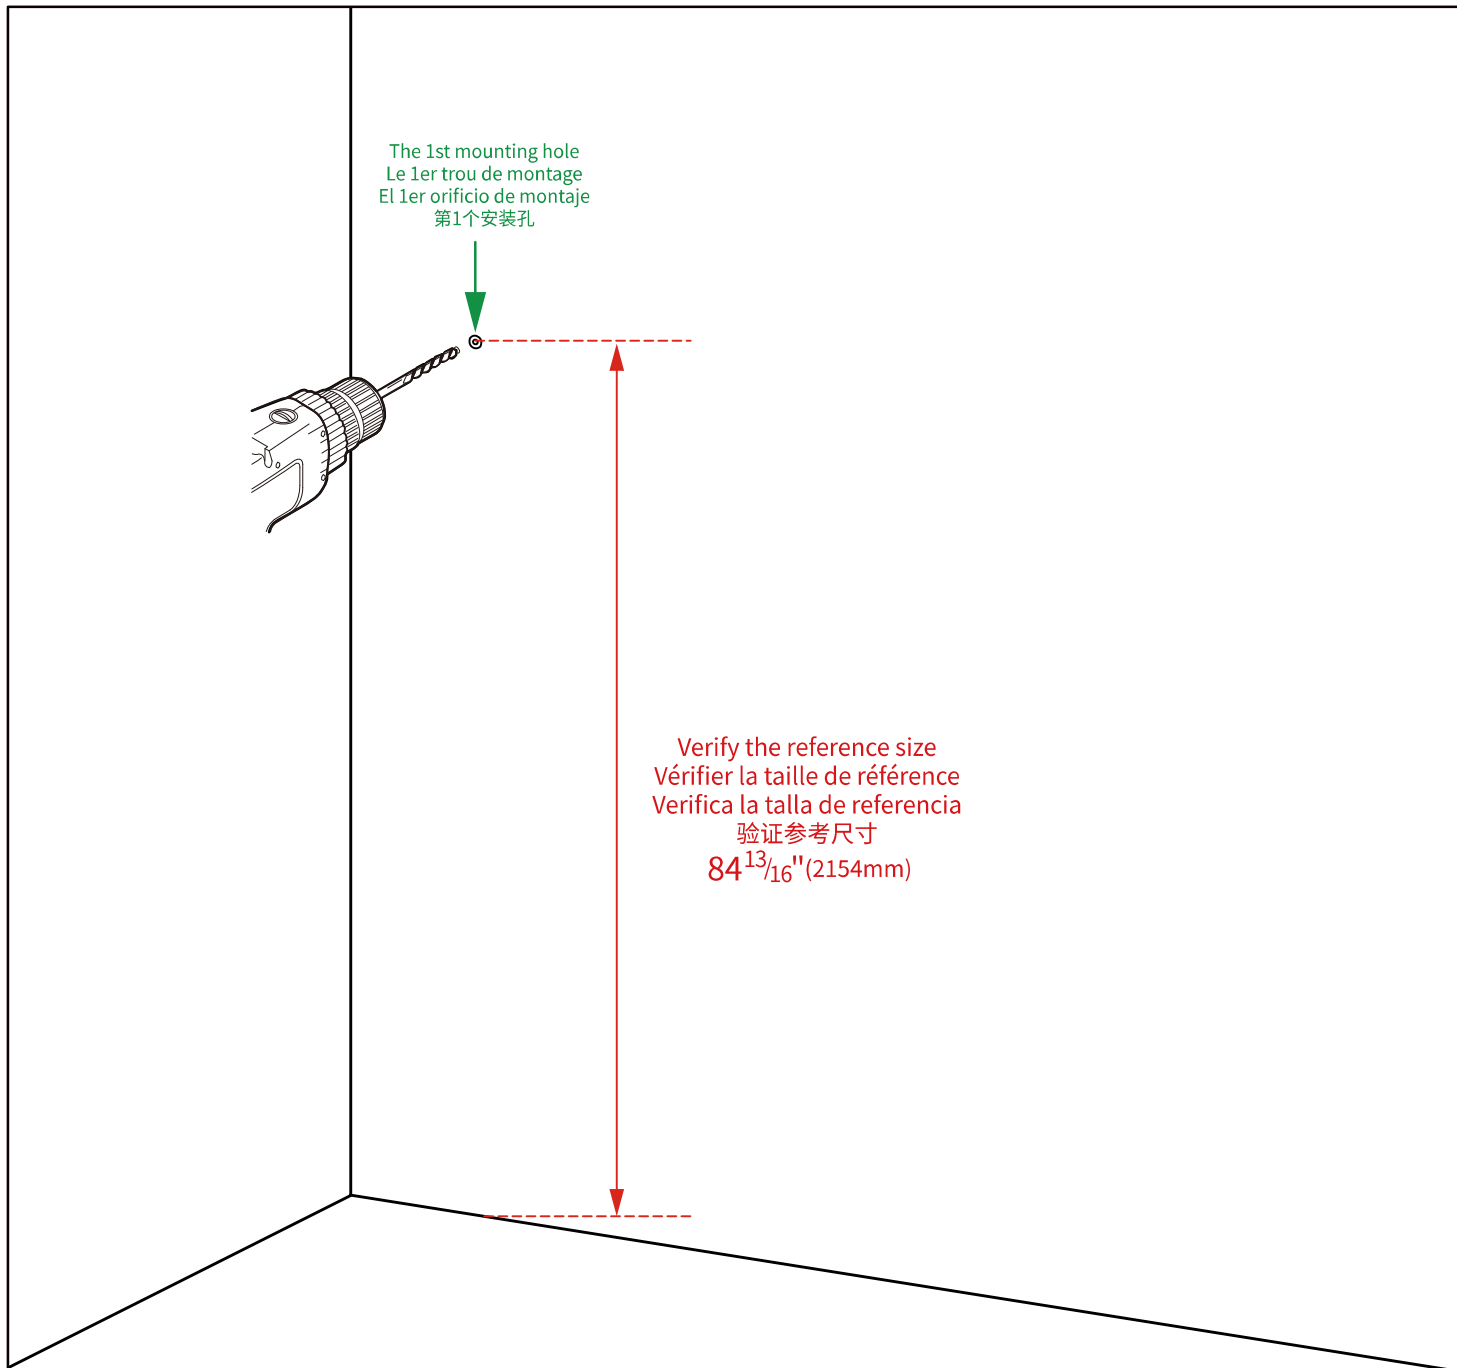

Después de colocar la columna verticalmente contra la pared, presione firmemente o golpee el extremo del tubo horizontal en la parte superior de la columna con un martillo de goma hasta que el pasador convexo del parche colocado en la boquilla deje una marca en la pared y luego retire la columna.

将立柱垂直贴墙放置后用力按压或借助胶锤轻敲立柱顶横管端部，直到放置在管口的铁片凸针在墙面留下一个凹坑印记后移开立柱。

STEP 8

#2

#1

Insert the wood tip into the 1st mounting hole that has been drilled, and fix the "hole center distance: 23-5/8'' (600mm)" to install and locate the aluminum tube.

Insérez la pointe en bois dans le 1er trou qui a été percé et fixez la "distance centrale du trou : 23-5/8'' (600 mm)" pour installer et localiser le tube en aluminium.

Inserte la punta de madera en el primer orificio que se perforó y fije la "distancia del centro del orificio: 23-5/8'' (600 mm)" para instalar y ubicar el tubo de aluminio.

木梢插入已钻好的第1个安装圆孔内，固定 "hole center distance: 23-5/8'' (600mm)" 安装定位铝管。

The assembled column is placed vertically against the wall and the upper horizontal tube is clamped into the gap of the aluminum tube for installation and positioning. The height of the mounting hole from the ground is controlled by the height of the column itself.

La colonne assemblée est placée verticalement contre le mur, le tube horizontal supérieur est serré dans l'espace du tube en aluminium pour l'installation et le positionnement, et la hauteur du trou d'installation à partir du sol est contrôlée par la hauteur de la colonne elle-même.

La columna ensamblada se coloca verticalmente contra la pared, el tubo horizontal superior se sujeta con abrazaderas en el espacio del tubo de aluminio para su instalación y posicionamiento, y la altura del orificio de instalación desde el suelo se controla mediante la altura de la columna misma.

用装配好的立柱靠墙垂直放置，上横管卡入安装定位铝管缺口内，通过立柱自身高度来控制安装孔位距地面高度。

FINAL VERIFICATION AND ADJUSTMENT OF COLUMN INSTALLATION

VÉRIFICATION FINALE ET AJUSTEMENT DE L'INSTALLATION DE LA COLONNE

VERIFICACIÓN FINAL Y AJUSTE DE LA INSTALACIÓN DE LA COLUMNA

立柱安装最终验证及调节

! Please verify in the order of No.1 to No. 5. / Veuillez vérifier dans l'ordre du n° 1 au n° 5. / Verifique en el orden del No.1 al No. 5. / 请按照序号1到序号5的顺序进行验证。

1

Use a spirit level as a reference to adjust to ensure that the column is perpendicular to the ground.
Utilisez un niveau à bulle comme référence pour ajuster afin de vous assurer que la colonne est perpendiculaire au sol.
use un nivel de burbuja como referencia para ajustar y asegurarse de que la columna esté perpendicular al suelo.
用水平仪做参照来调节,保证立柱与地面垂直。

2

The end face of the pipe should be close to the wall.
La face d'extrémité du tuyau doit être proche du mur.
La cara final de la tubería debe estar cerca de la pared.
管端面要紧贴墙面。

Verify and adjust the distance between the bottom of the column and the wall.
Vérifiez et ajustez la distance entre le bas de la colonne et le mur.
Verifique y ajuste la distancia entre la parte inferior de la columna y la pared.
验证调节立柱底部与墙面之间距离。

3

Verify and adjust the distance between the bottoms of two adjacent columns. / Vérifiez et ajustez la distance entre les bas de deux colonnes adjacentes.
Verifique y ajuste la distancia entre los fondos de dos columnas adyacentes. / 验证调节相邻两个立柱底部之间距离。

5

Make sure that all the uprights are vertical to the horizontal plane of the ground, that the adjacent uprights are parallel to each other, and that all the adjusting feet of the uprights can touch the ground and then lock all the screws.
Assurez-vous que tous les montants sont verticaux par rapport au plan horizontal du sol, que les montants adjacents sont parallèles entre eux et que tous les pieds de réglage des montants peuvent toucher le sol, puis verrouillez toutes les fléchettes.
asegúrese de que todos los montantes estén verticales al plano horizontal del suelo, que los montantes adyacentes estén paralelos entre sí y que todas las patas de ajuste de los montantes puedan tocar el suelo y luego bloquear todos los dardos.
确认所有立柱与地面水平面成垂直状态,相邻立柱之间相互平行,且所有立柱调节脚都能碰到地面后锁紧所有螺丝。

4

Check all the adjusting feet at the bottom of the column to ensure that all adjusting feet cannot be suspended in the air.

Vérifiez tous les pieds de réglage au bas de la colonne pour vous assurer que tous les pieds de réglage et le sol ne peuvent pas être suspendus dans les airs.

Verifique todas las patas de ajuste en la parte inferior de la columna para asegurarse de que todas las patas de ajuste y el suelo no puedan quedar suspendidos en el aire.

检查所有立柱底调节脚,要保证所有调节脚与地面不能悬空。

STEP 11

STEP 12

STEP 13

STEP 14

When installing the drawer, push the drawer panel inward with a little force to ensure that the handle buckle is completely hooked to the notch on the side of the slide rail.

Lors de l'installation du tiroir, poussez le panneau du tiroir vers l'intérieur avec un peu de force pour vous assurer que la boucle de la poignée est complètement accrochée à l'encoche sur le côté de la glissière.

Al instalar el cajón, empuje el panel del cajón hacia adentro con un poco de fuerza para asegurarse de que la hebilla de la manija esté completamente enganchada a la muesca en el costado del riel deslizante.

安装抽屉时需稍用力向内推抽屉面板，保证手柄卡扣完全钩住滑轨侧边缺口。

Hook the gap on the side of the slide rails to hold the drawer.
Enganche el espacio en el costado de los rieles de deslizamiento para sostener el cajón.
Accrochez l'écart sur le côté des rails de glissière pour maintenir le tiroir.
钩住滑轨侧边缺口可固定抽屉。

Handle Clips/Clips de poignée/Clips de asa/手柄卡扣

Press the handle clips on both sides of the drawer to remove the drawer.
Appuyez sur les clips de poignée des deux côtés du tiroir pour retirer le tiroir.
Presione los clips de la manija en ambos lados del cajón para quitar el cajón.
按压抽屉两边的手柄卡扣可取下抽屉。

STEP 15

Toggle this buckle back and forth to adjust the drawer up and down.
 Faites basculer cette boucle d'avant en arrière pour régler le tiroir vers le haut et vers le bas.
 Alterne esta hebilla hacia adelante y hacia atrás para ajustar el cajón hacia arriba y hacia abajo.
 前后拨动此扣可让抽屉上下移动调节。

Toggle this buckle left and right to adjust the drawer front and rear.
 Basculez cette boucle à gauche et à droite pour régler le tiroir avant et à l'arrière.
 Alterne esta hebilla a la izquierda y a la derecha para ajustar el cajón delante y trasero.
 左右拨动此扣可让抽屉前后移动调节。

Rotate this gear to adjust the drawer left and right.
 Faites pivoter cet équipement pour régler le tiroir à gauche et à droite.
 Gire este engranaje para ajustar el cajón a la izquierda y a la derecha.
 旋转此轮可让抽屉左右移动调节。
