FAQ

Support

THE MOUNTS EXPERT FOR FAMILY HOME ENTERTAINMENT

"LET'S MAKE SURE THIS MOUNT IS COMPATIBLE. IF YOU HAVE ANY QUESTIONS, PLEASE CONTACT US."

1

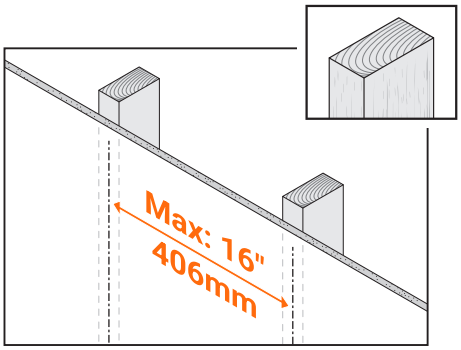

Max VESA:
600 x 400mm (23.6 x 15.7")

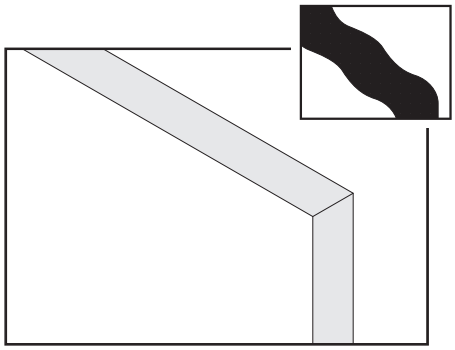

Min VESA:
200 x 100mm (7.9 x 3.9")

2

⚠ WARNING:
Do not install on drywall alone.

Wood Studs (with Drywall)

Solid Concrete

⚠ **DANGER:** Please carefully read all instructions before attempting installation. If you do not understand the instructions or have any questions or concerns, please contact us.

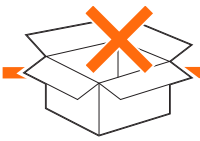

⚠ **CAUTION:** Avoid the risk of personal injury and property damage!

⚠ **WARNING:** All fasteners must be firmly tightened!

⚠ **WARNING:** Do not exceed the Max Load. Exceeding the Max Load can cause the mount to fail, leading to personal injury and/or property damage.

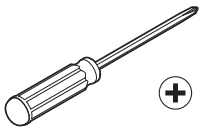

- **Before starting assembly, verify that all parts and hardware are included and undamaged. Do not use damaged or defective items. If you require replacements, please contact us.**
- This product is designed for installation on wood studs and solid concrete. Do not install on drywall alone.
- The wall must be capable of supporting four times the weight of the TV and mount combined.
- This product contains small parts that may pose a choking hazard.
- Do not use this product for any purpose that is not explicitly specified in this manual. We are not liable for damage or injury caused by incorrect assembly, improper mounting, or inappropriate use.
- Use this mounting system only for its intended purpose as described in these instructions. Do not use attachments not recommended by the manufacturer.
- Do not use outdoors.
- Route cords and cables properly to avoid mechanical damage.

⚠ CAUTION!
This anchor is for solid concrete ONLY. Do not use them in drywall or wood studs.

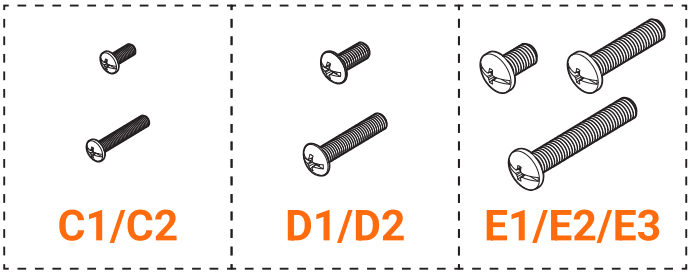

STEP 1

1-1

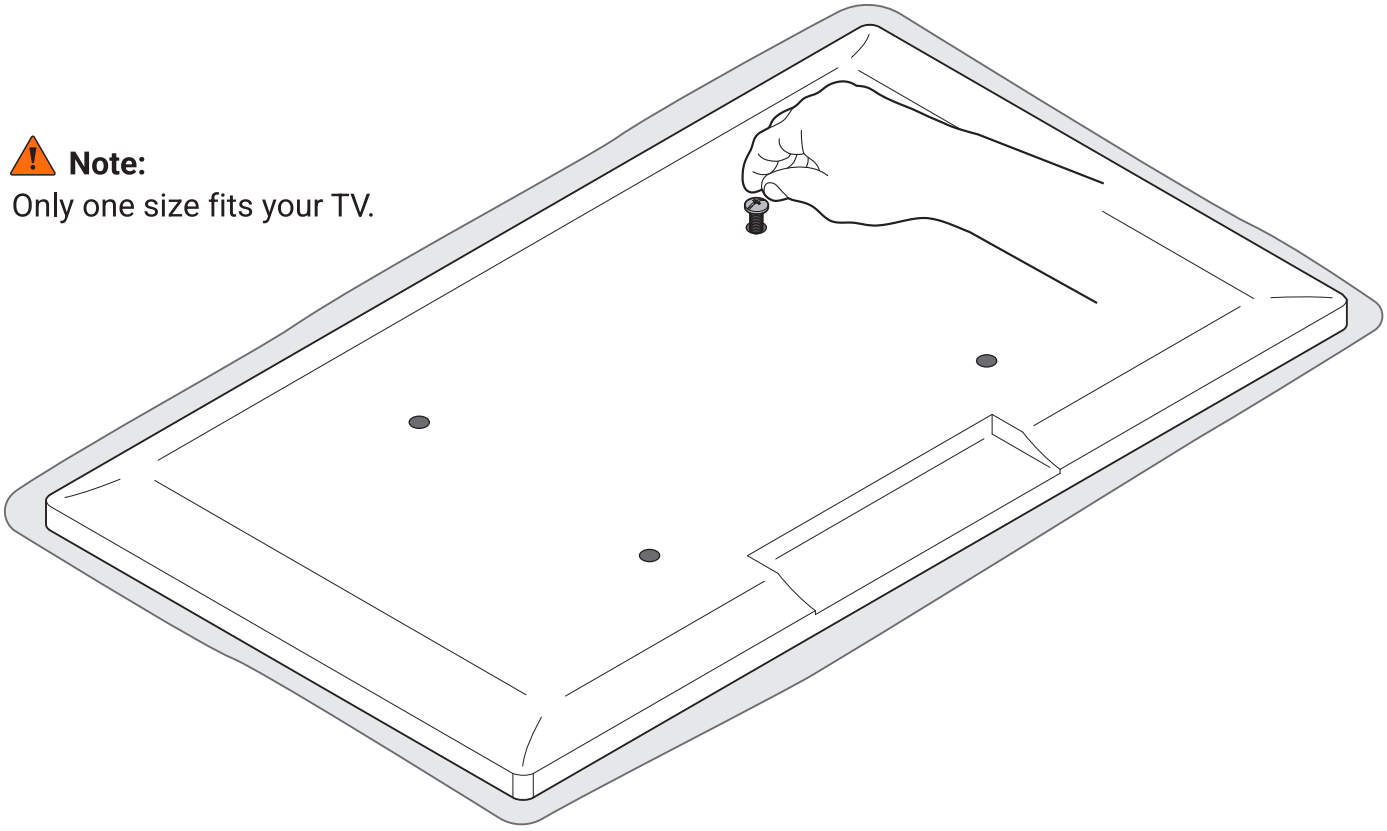

1-2

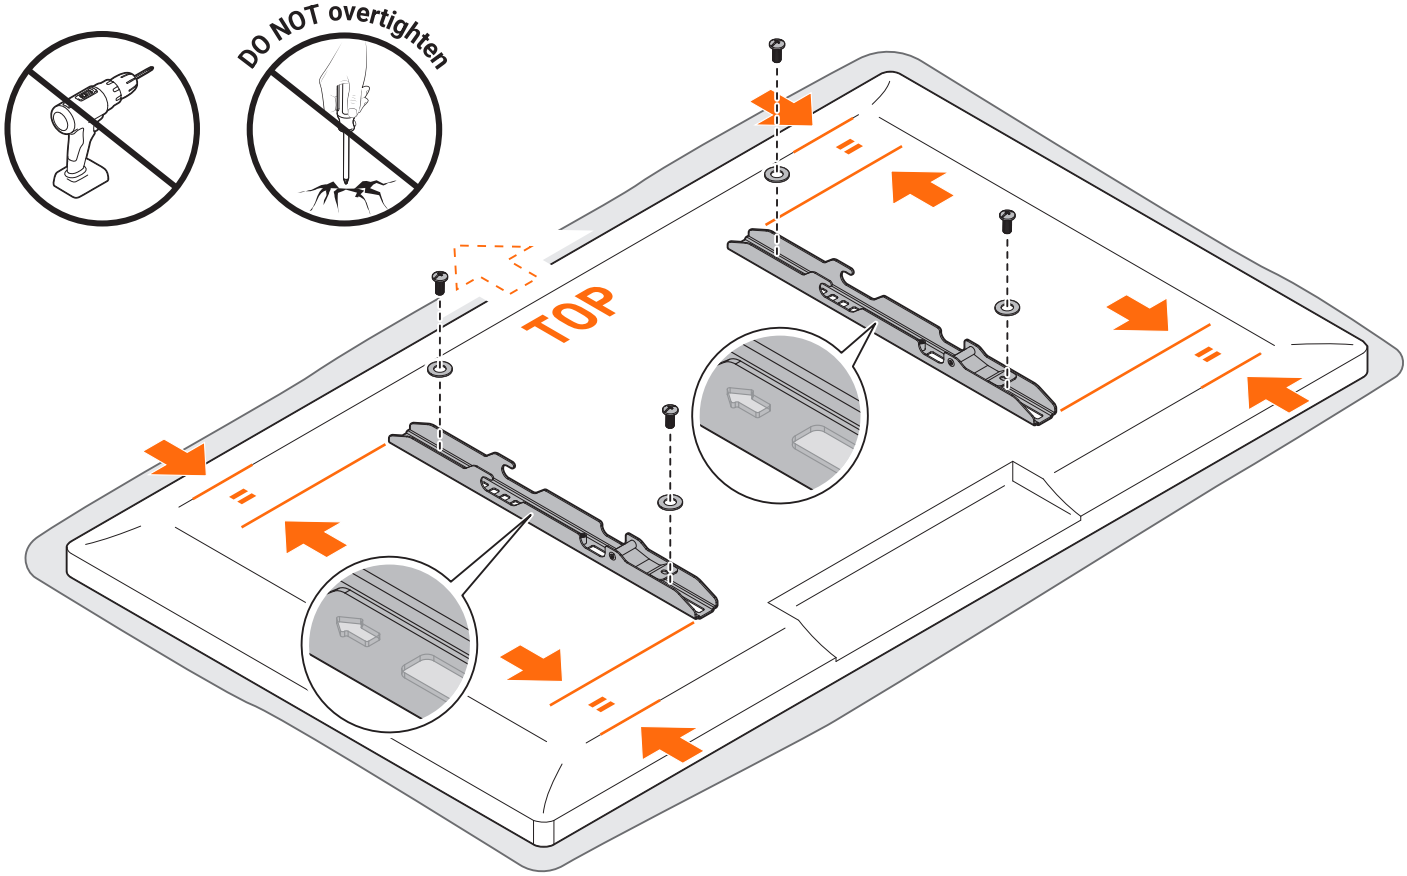

Note:
Only one size fits your TV.

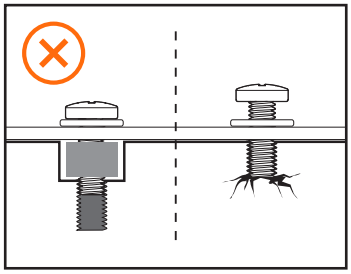

The correct bolt diameter should thread smoothly into the VESA mounting holes.

1-3

⚠ WARNING:

- The depth of the bottom holes may be different from the top holes.
- Do not turn the bolt past the bottom of the hole.
- If the bolt is too short, it may not adequately support the TV.
- If the bolt is too long, it could damage the TV.
- At least 4–5 turns into the threading is required.

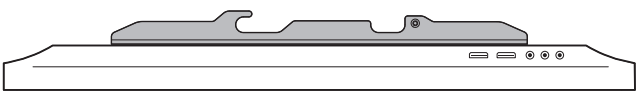

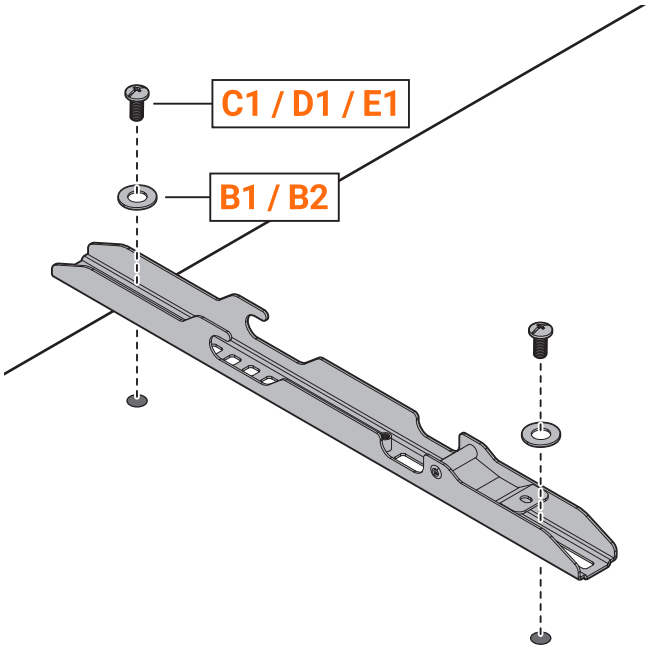

Option A

Use short TV bolts with washers.

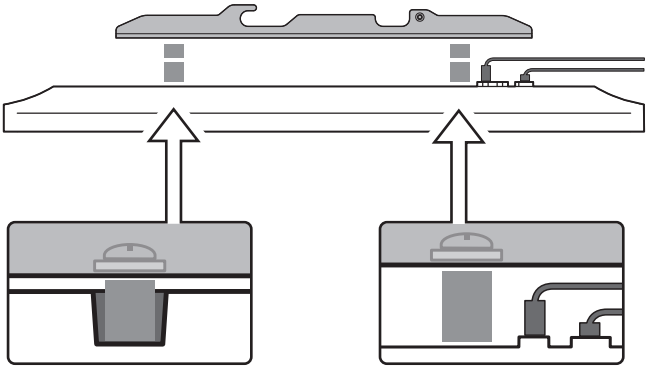

Flat-Back TV

Option B

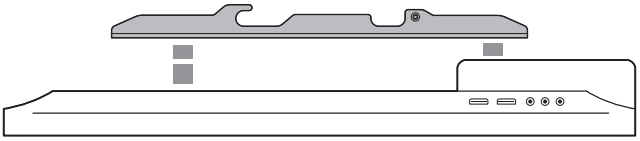

B1: TV with Mounting Restrictions

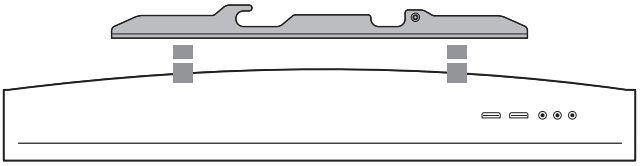

Recessed Holes

Protruding Cables

B2: Bump

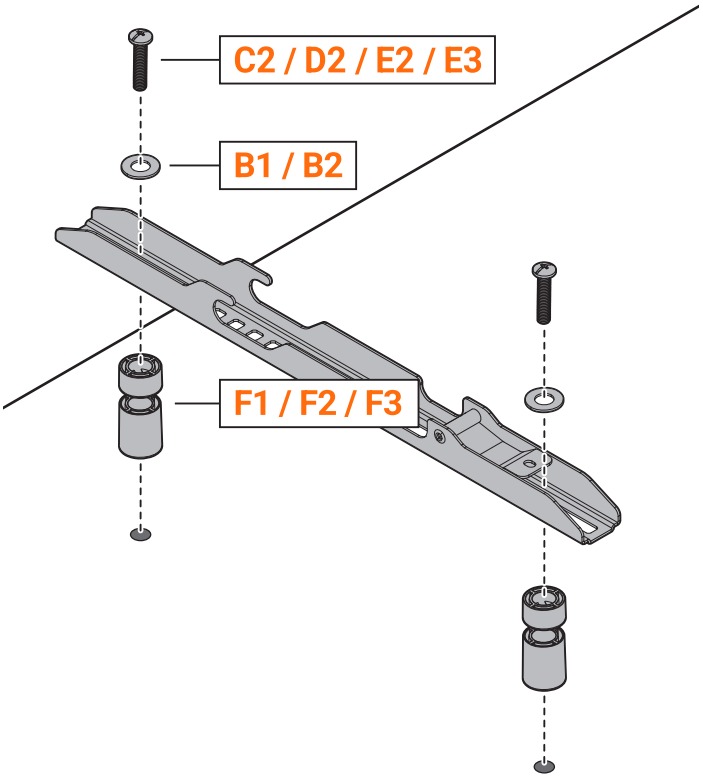

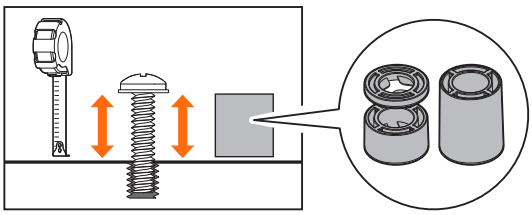

B3: Curved TV

Use long TV bolts with washers and spacers to create extra space between the TV and brackets.

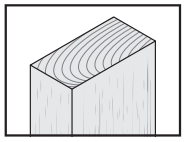

Measure or compare to choose the best spacer combination. There are multiple combinations that can be used.

STEP 2

Option A

For Wood Stud Installation

If your wood studs are spaced more than 16" (406mm) and less than 24" (610mm) apart, please contact us for free extension brackets to install the mount.

3-2

Level

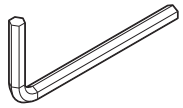

5/32" (4mm)
G4

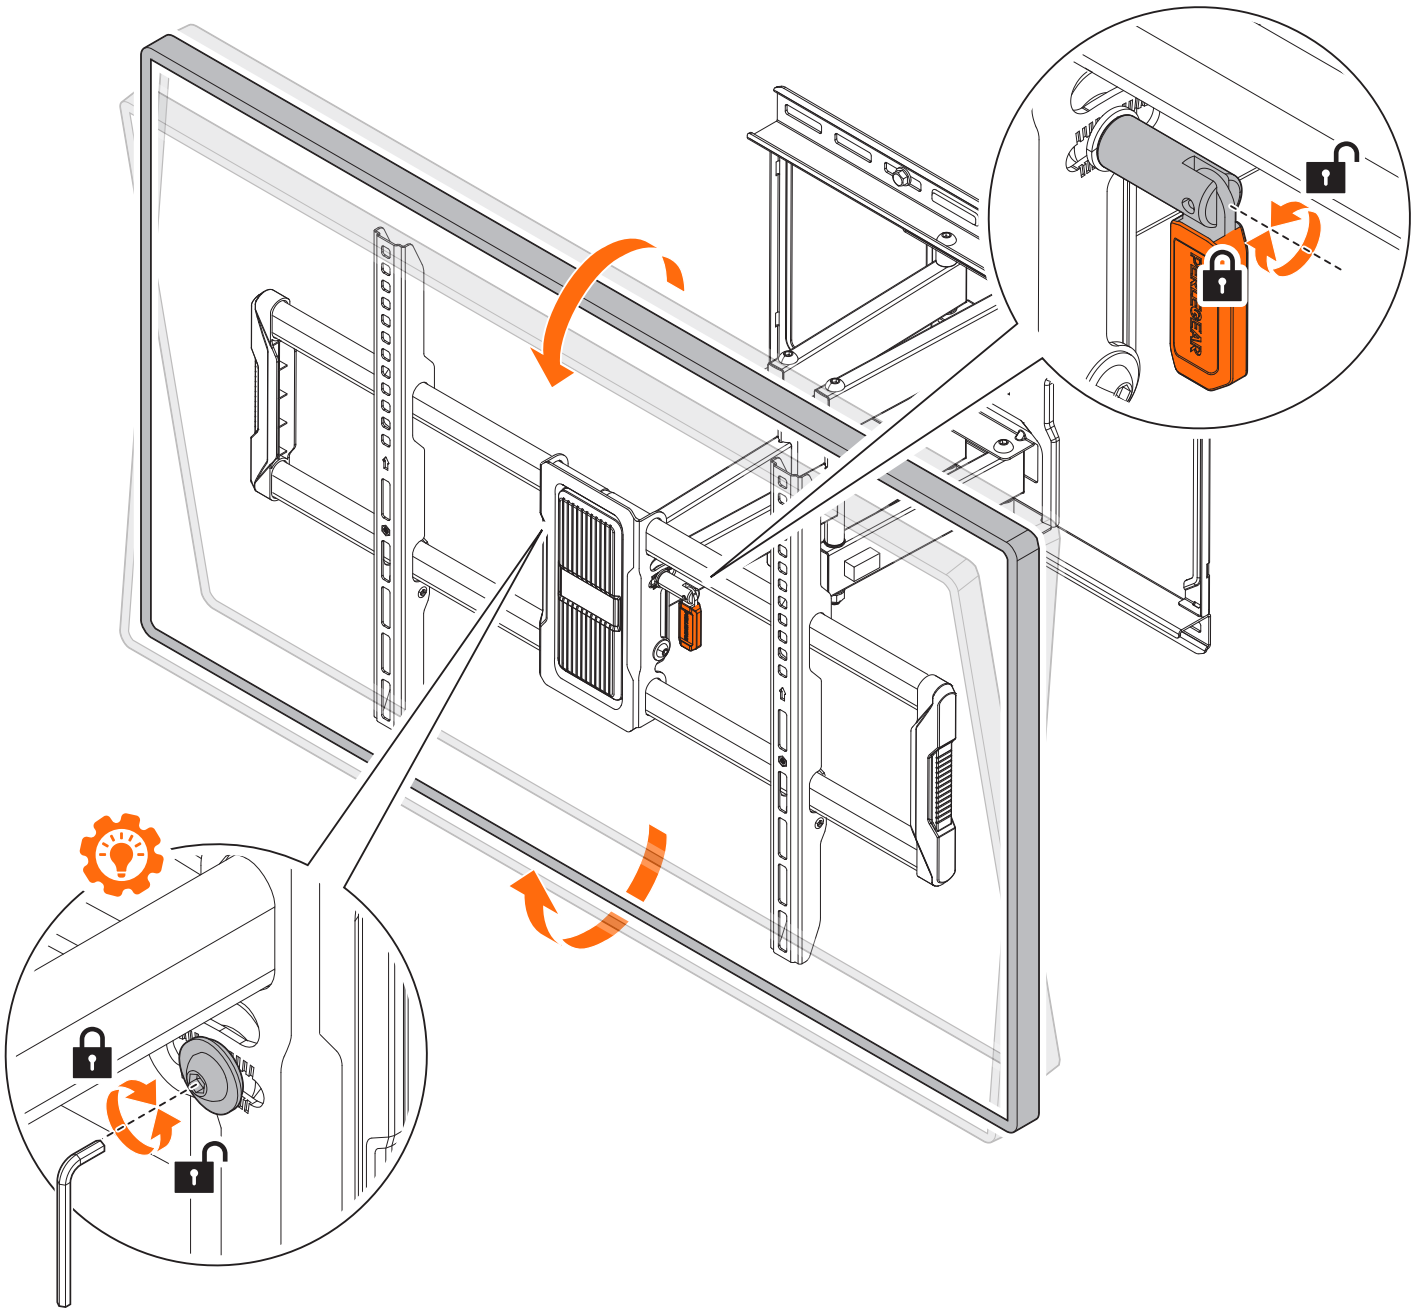

Note:
Do not overtighten or overloosen.

Hard to level? Slightly loosen the bolts, adjust, and then retighten.

Tilt

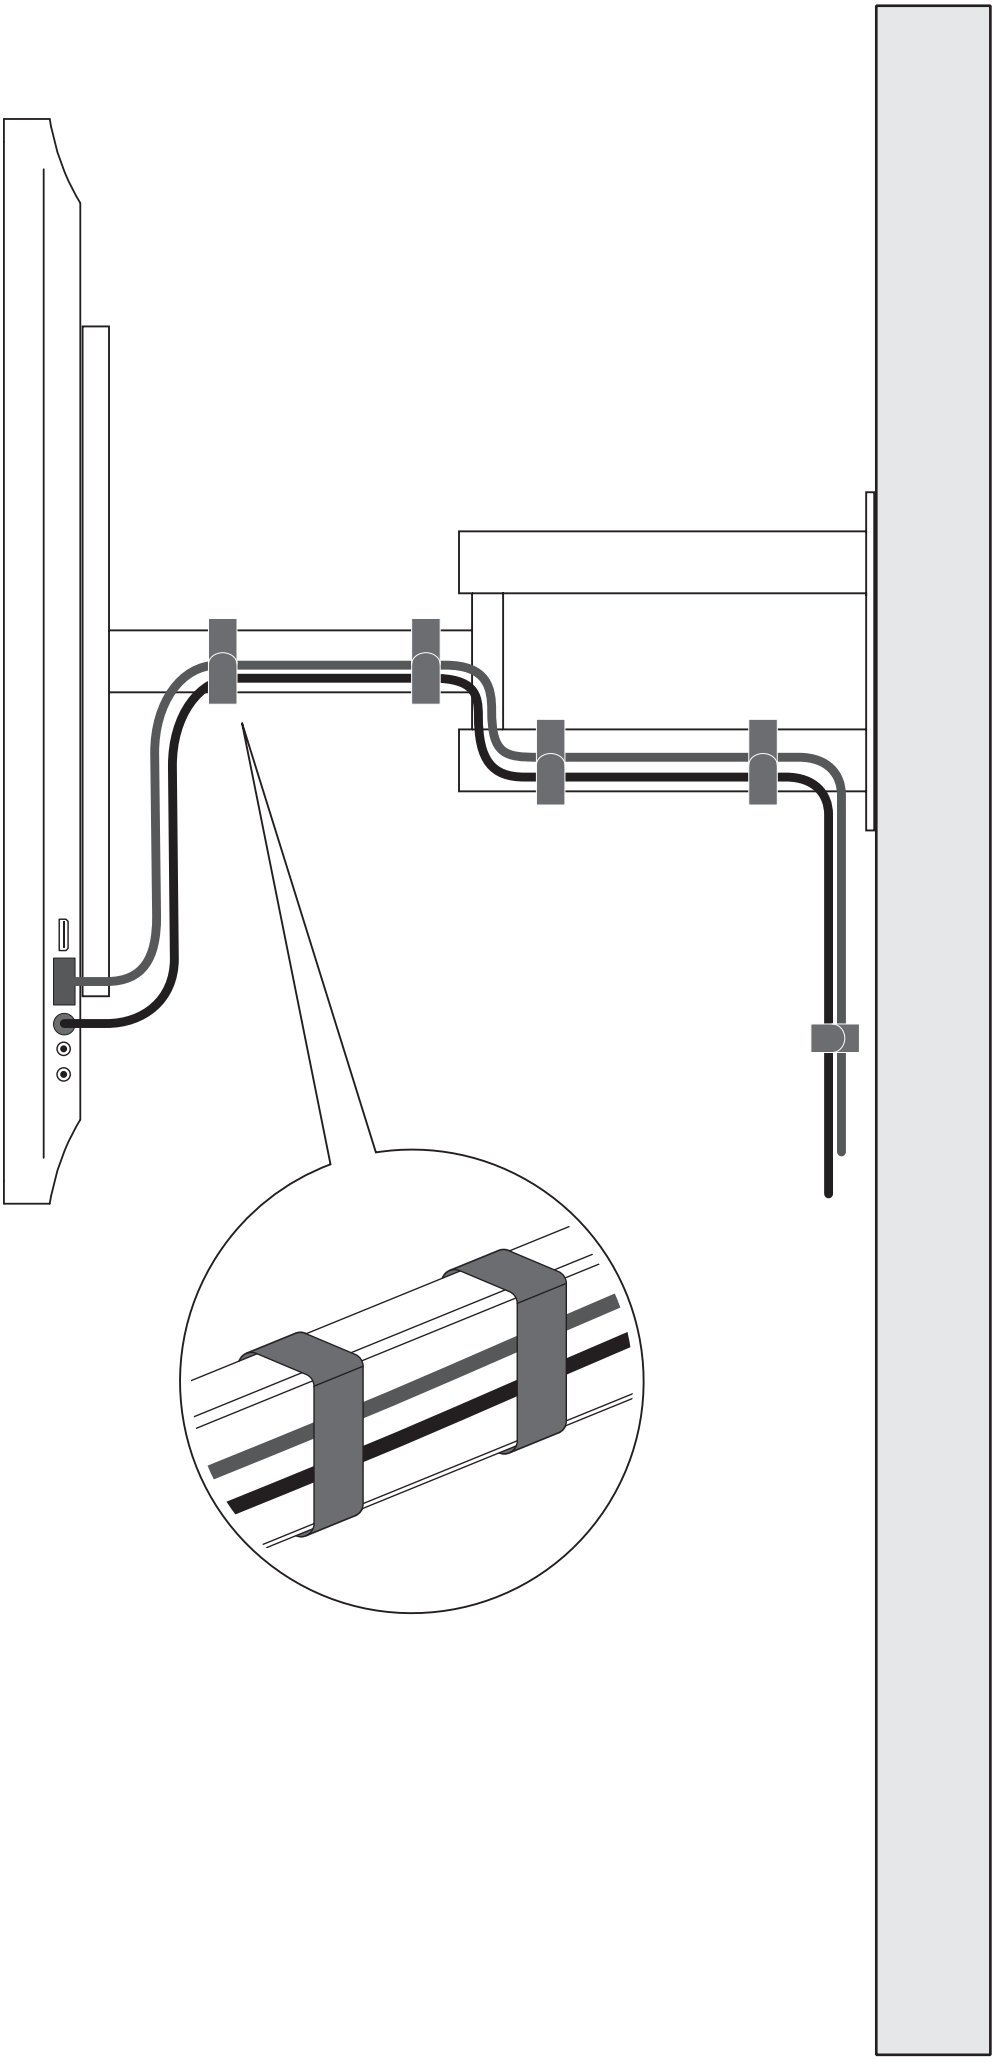

5/32" (4mm)
G4

Note:
Do not overtighten or overloosen.

Slightly loosen the lever, adjust, and then retighten.
- **Still hard to tilt?** Slightly loosen the bolt on the other side, adjust, and then retighten both.
- **Tilt won't hold?** Fully tighten the bolt on the other side.
