Strand Dining Chair

- Danish Cord woven seat and backrest is derived from natural wood fiber. This material is visually appealing and gets more comfortable over time.
- It is normal for solid wood to expand and shrink because of variations in environmental humidity. A consistent humidity level of approximately 50% is recommended to prevent cracks and surface splits.
- Wood is a natural material, with variations in grain pattern and colour that make each design unique.
- Frame crafted from solid Oak.
- Wood surfaces are finished with Rubio® Monocoat - a durable, matte, oil-based protector designed to highlight the beauty of natural wood.
- Wood finish is certified 0% VOC and is an all-natural, environmentally friendly product.
- Over time the finish will develop a rich patina which highlights the beauty of the natural wood.
- Surface can be revitalized as desired. Visit Rubio® Monocoat website for more information.
- Non-marking tack glide feet on legs to protect hardwood floors.
