

INSTALLATION INSTRUCTIONS

Applicable Installation Environment

Make sure that the wall is in smoothness, and do not stick on any wallpaper.

Applicable installation environment	Not Applicable installation environment
✓ Wood wall / tile wall / metal wall / glass wall / latex paint wall	✗ long-term in moist wall / wallpaper / dusty wall

Installation Steps

Load-Carrying Check

Check the load-carrying capacity of the wall, and make sure it can bear the weight of the mirror.

Measure off

Mark the distance on the wall at a required height.

Punch Holes

Drill two holes of 0.23-0.31 inches in diameter and 1.98 inches in depth at arranged position.

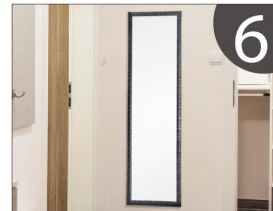

Expansion screw

Put the metal screws into the plastic expansion screws

Hang Mirror

Hang the mirror onto the wall then install the mirror holders.

Complete Installation

Make sure the mirror is securely mounted and there are no signs of looseness.
