## Tru-Universal Touch Style Dimmers

adorne® Tru-Universal Dimmers do something today's dimmers don't: they simply work – with virtually any dimmable lamp, load, and fixture on typical residential and light commercial wiring (with the exception of 0-10V LED drivers). Once a user selects the lamp type, the dimmer's self-calibrating technology automatically sets the minimum voltage of that lamp adorne®

adorne® Touch Style Dimmers feature stunning translucent face and operates just like an iPhone - simply touch you finger on the circle to turn the lights on and off, or use the arrows on the right to dim them. The white Touch interface is created using a unique translucent material. In multi-gang installations, we recommend pairing white Touch switches and dimers for optimal consistency.

Touch products include a Locator Status Light which add illumination and make it easier to locate in the dark.

## FEATURES & BENEFITS

adorne devices fit in all existing NEMA-approved wallboxes.

Heavy gauge steel frame is grounded via factory installed 12AWG ground lead. Device and metal wall plates are self-grounded to frame.

STANDARD WALLBOX

FRAME

DEVICE

adorne devices can be installed in any existing standard wallbox.

Backwire terminal screws are recessed into back of body.

Device snaps into the frame and self-aligns without any screws.

WALL PLATE

Wall plate snaps onto frame; no screws required.

Modular system solves device alignment problems, improving fit and finish in multi-gang installations.

Wall plate and frames available in 1-6 gang sizes.

## ORDERING INFORMATION
