

ASSEMBLY INSTRUCTIONS:

- 1** Screw two locking wheels into each base. Feet are also provided.

- 2** Attach bases to the ends of the assembled crossbeam using the butterfly knobs and washers.

- 3** Screw adjustable pull knobs into each base. The knobs are spring-loaded so you can adjust the height & width of the stand.

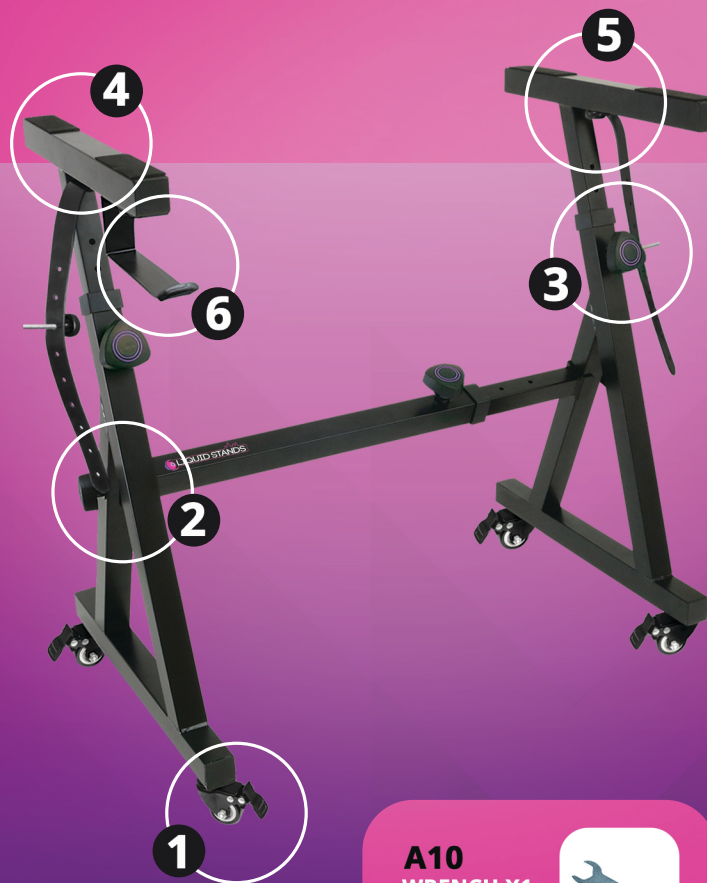

- 4** Attach padded rests to the top surface of the support legs.

- 5** If your keyboard supports security straps, screw the straps into the support legs.

- 6** Screw the headphone hook into the bottom of either support.
