The medicine cabinet supports two installation methods:

1.Surface Installation and 2.Embedded Installation.

Please choose the installation way as needed.

1. - The distance between the bottom of bracket to the top of the mirror is 2-1/3"inch(60mm).
- The recommended installation safety distance is 3 inch(at least) from the faucet.

- 1.1 -Use a 5/16" (mm) drill to drill holes at the marked points to a depth of 13/4" (45mm), then apply the wall anchors with a hammer. Mount the lower bracket to the wall with screws.

- 1.2** Lift the medicine cabinet and place it securely in the upper bracket. Holding the cabinet in an upright position, secure the lower bracket in the grooves on the bottom of the cabinet.

Note: Gently shake the mirror to ensure that the mirror is securely installed.

- 1.3** Install side Panels

Note: No need to install side panels if recessed.

Align the slots inside of the board and cabinet.

Press down the board until they are clamped together.

Connect the wires

BLACK WIRE----POWER SUPPLY L(LINE)
WHITE WIRE----POWER SUPPLY N(NEUTRAL)
GREEN WIRE----POWER SUPPLY G(GROUND)

Embedded Installation Instruction

2. - The wall space is set aside in advance based on the size of the recessed led medicine cabinet

Before installing, it is necessary to determine the opening size, which can be referred to in the table below.

Actual cabinet		Wall opening dimensions for embedded installation all in Inches.		
No.	Dimensions	W (Width)	H (Height)	D (Depth)
1	24" x 30"	23-1/4	29-1/4	4-3/8
2	36" x 30"	35-1/4	29-1/4	4-3/8
3	48" x 30"	47-1/4	29-1/4	4-3/8
4	60" x 30"	59-1/4	29-1/4	4-3/8

2.1 Connect the wires

BLACK WIRE----POWER SUPPLY L(LINE)
 WHITE WIRE----POWER SUPPLY N(NEUTRAL)
 GREEN WIRE----POWER SUPPLY G(GROUND)

2.2 Install the recessed led medicine cabinet.

2.3 Insert the tempered glass shelves.

3. Cabinet Door Installation

3.1 Insert the hinges to the base ,then connect the doors with the cabinet.

3.2 If necessary, adjust corresponding screws on the hinge to align the doors, ensure that gaps are even and the doors open and close smoothly.

4. HYDRAULIC HINGE ADJUSTMENT METHOD

Open the "DTC" cover in the direction of the arrow.

① : Adjust the door counterclockwise to move to the right, Turn clockwise to adjust the door to move to the left.

② : Twist counterclockwise to loosen it, You can adjust the front and rear direction of the door. Tighten clockwise after adjustment.

Since this product has multiple DTC hinges in the cabinet, if you need to adjust the relative position of the cabinet door up and down, left and right,

Note: please adjust the hinges for better use of this product.

Time/Temperature Screen

Color temperature touch

Light touch

Anti-fog touch

Note: Not suitable for high power appliances.

Sockets: 120Vac, 2A(Max), 240W;
Usb: 5Vac, 3.6A(Max), 18W;

Left button: Color temperature adjustment.

There are 3 C. T. to select, make a short press to switch them. White light(6000K) - Natural light(4000K) - Yellow light(3000K). Press and hold the touch to make the color temperature stepless adjustment(6000K to 3000K).
