

# Safety Handles

### Kit Includes

- 2 Safety Handles
- 4 1-3/4" screws
- 4 washers
- 1 plan

### Installation Instructions

1. Position **Safety Handles** in each ladder or slide opening. The bottom hole of the safety handle should be 8" from the top of the deck.
2. Mark the hole locations and drill a pilot hole at each location using a 1/8" drill bit.
3. Attach safety handles to the unit using two 1-3/4" screws and 1/4" washers per handle (see Fig. 1).
